

# Community Energy Lecture Series

## The Nuclear Option - Are Small Scale Nuclear Power Plants an option for Alaska?

Tuesday, January 18th, 2011

6 – 7:30 p.m.

Location: **Blue Loon** (2999 Parks Highway)

Presentation by:

**Dennis Witmer**

Energy Consultant, Energy Efficiency Evaluations

**Toby Schwörer**

Research Professional, Institute of Social and Economic Research

Small scale nuclear power plants have been suggested at various times for both rural and Railbelt energy production in Alaska. With

nuclear energy receiving renewed national and global attention, should Alaska consider it to solve our energy issues?

This lecture will provide an overview of small scale nuclear technology and its potential applications in Alaska. Design and permitting considerations, safety and security, economics, ownership, resource and environmental issues will be discussed.

If you live outside the Fairbanks area, attend the lecture through our new live video webstreaming of the event. Visit: <http://www.uaf.edu/acep/>

Presented by

**ACEP**  
Alaska Center for Energy and Power

Renewable Energy  
Alaska Project
