A.A.S. Degree

Minimum Requirements for Degree: 60 credits

Planning and preparation are the keys to success in business. The A.A.S. degree in applied business provides students with the skills and training needed to run a business effectively. The program covers basic knowledge and skills, emerging technologies, advanced procedures and interpersonal skills. Courses teach the principles of accounting, management, human relations, math, communications, customer service, computers, law, finance and logic.

Instructors provide a practical understanding of the marketplace—not just a textbook view of business. The applied business program may prepare a student to enter the rural development B.A. degree program and the B.T. degree program.

Potential careers for graduates include entrepreneurship and entry-level positions in business management, tourism human resources and public administration.
