B.A. Degree

Minimum Requirements for Degree: 126 or 127 credits

This program provides the necessary preparation for early childhood educators who wish to advance their professional knowledge and career opportunities with specialized study in curriculum, administration or family support. A strong desire to work in an early care and education setting with children and their families is important.

Students who have completed the A.A.S. in early childhood education program will have completed the first part of the B.A. program, although completion of the A.A.S. degree is not a requirement for entry to this program. Students majoring in this program must work closely with their advisors and be willing to work collaboratively within their concentration to fulfill the practicum components of the course of study.

This program is available through flexible course delivery methods to early childhood educators living in both rural and urban Alaska. Graduates are highly competitive candidates for positions of greater responsibility and compensation in the early care and education profession in Alaska.
