B.S. Degree

Minimum Requirements for Degree: 120 credits

Statistics is a collection of methods and theories for making decisions or estimating unknown quantities from incomplete information. Statistical techniques are useful, for example, in estimating plant, animal and mineral abundances; forecasting social, political and economic trends; planning field plot experiments in agriculture; performing clinical trials in medical research; and maintaining quality control in industry. Employment opportunities are excellent for statisticians in many of these areas of application.

The curriculum for the B.S. degree program in statistics was developed using guidelines proposed by the American Statistical Association and provides graduates with a strong mathematics, computation and statistics background and integrates this with an area of application. The program allows considerable flexibility in the choice of the area of application by requiring a minor in any area offered by UAF.

The statistics program is administered by the Department of Mathematics and Statistics. In addition to the B.S. in statistics, the department offers a bachelor's degree in mathematics with an emphasis in statistics. A minor in statistics is also available.

Major—B.S. Degree

- Complete the following pre-major requirement:
 - Students must be ready to matriculate into MATH 200X before they will be allowed to declare statistics as their major.
- Complete the general university requirements. (See page 116. As part of the core curriculum requirements, complete MATH 200X*. ENGL 314 is recommended to fulfill one of the writing intensive course requirements.)
- Complete the B.S. degree requirements. (See page 121. As part of the B.S. degree requirements, complete MATH 201X*.)

- Complete a minor in any discipline in which UAF offers a minor. A mathematics minor is completed by all statistics majors and may be used to meet this requirement.
- Minimum credits required.....120

* Student must earn a C grade or better in each course.

Note: A double major in statistics and math may be obtained by completing the following: 2, 3, 4, 5 and 6 above, MATH 215, 308, 401W, 490O and 9 additional credits in upper-division math or statistics. A math elective package is MATH 371 and MATH 408, and STAT 401 and STAT 402 plus 8 credits upper-division MATH or STAT. The statistics elective package is MATH 215 and MATH 401W. Minimum credits required is 60 including MATH 200X and MATH 201X. Other double majors are available.

Minor

- Complete the following:

STAT 200X—Elementary Probability and Statistics (3) or STAT 300—Statistics (3).....	3
STAT 401—Regression and Analysis of Variance	4
