### B.A., B.S. Degrees
Minimum Requirements for Degrees: 130 credits

Graduates qualify for employment as teachers of chemistry; supervisors in industry; technical sales personnel; research chemists in federal, state, municipal, academic or industrial laboratories; in pre-medicine; and as laboratory personnel. Graduates also find positions in the environmental sciences, oceanography and related interdisciplinary fields. Many chemistry graduates elect to pursue advanced M.S.; Ph.D., pharmacology or M.D. degrees.

The chemistry curriculum meets the American Chemical Society standards of introducing the basics of general, organic, inorganic, physical and analytical chemistry, and biochemistry. Undergraduate research leading to publications is strongly encouraged and many of the laboratory-based courses have a research component built into them. There are also options for an ACS-accredited degree which provides students additional exposure to environmental chemistry, biochemistry or forensic chemistry. Limited teaching assistantships are often available for upper division students, which strengthens leadership and communication skills.

The bachelor's degree in environmental chemistry prepares students for public and private sector jobs in the field, or for graduate programs in environmental chemistry and related disciplines. The degree program is designed to provide students with core training in the chemical sciences, while providing exposure to a broad range of related disciplines. Students work with a faculty advisor to select required elective courses that best meet their interests and academic goals. Students are also required to enroll in research credits with a focus on an environmental chemistry topic. This provides an opportunity for students to gain first-hand experience working on advanced topics that are generally outside of the scope of an undergraduate curriculum. See the environmental chemistry graduate program or a description of the field of environmental chemistry.

The chemistry and biochemistry department is housed in the Reichardt Building, which is equipped with research-grade instrumentation, including a high field nuclear magnetic resonance spectrometer, FT infrared spectrometers, atomic absorption spectrometer, UV-VIS diode array spectrometers, two gas chromatographs interfaced with mass spectrometers, a gas chromatograph with a flame ionization detector, high performance liquid chromatograph, capillary electrophoresis and a modern glove box for handling air-sensitive chemicals. Equipment for specialized X-ray diffractometry, electron microscopy, liquid scintillation counting, atomic force-field microscopy, dynamic light scattering analyses, etc., is available in cooperation with other UAF departments and institutes. Two computer laboratories equipped with modern chemical software and other software are available for all students enrolled in F200-level or above courses.

### Major — B.A. Degree
1. Complete the general university requirements. (See page 131. As part of the core curriculum requirements, complete: MATH F200X; PHYS F103X and PHYS F104X, or PHYS F211X and PHYS F212X.)
2. Complete the B.A. degree requirements. (See page 136. As part of the B.A. degree requirements, complete: MATH F201X.)
3. Complete the following program (major) requirements:*  
   - CHEM F105X—General Chemistry I .......... 4  
   - CHEM F106X—General Chemistry II ........... 4  
   - CHEM F202—Basic Inorganic Chemistry ........ 3  
   - CHEM F212—Chemical Equilibrium and Analysis 4  
   - CHEM F321—Organic Chemistry I ............. 3  
   - CHEM F322—Organic Chemistry II .......... 3  
   - CHEM F324W—Organic Laboratory .......... 4  
   - CHEM F331—Physical Chemistry I .......... 4  
   - CHEM F332—Physical Chemistry II .......... 4  
   - CHEM F413W—Analytical Instrumental Laboratory 3  
   - CHEM F434W—Instrumental Methods in Physical Chemistry 3  
   - CHEM F481—Seminar 1  
   - CHEM F482O—Seminar 2  

4. Complete the following:  
   - MATH F202X—Calculus 4  

5. Minimum credits required 130  
   * Students must earn a C grade (2.0) or better in each course.

### Major — B.S. Degree
1. Complete the general university requirements. (See page 131. As part of the core curriculum requirements, complete: MATH F200X; PHYS F103X and PHYS F104X, or PHYS F211X and PHYS F212X.)
2. Complete the B.S. degree requirements. (See page 136. As part of the B.S. degree, complete: MATH F201X. Chemistry foundation courses may be used toward partial fulfillment of the natural science requirement.)
3. Complete the program (major) requirements as listed under Chemistry — B.A. Degree.
4. Complete the following,*  
   - CHEM F402—Inorganic Chemistry** .............. 3  
   - CHEM F450—General Biochemistry Macromolecules (3)  
     or CHEM F451—General Biochemistry Metabolism 3  
   - CHEM F488—Undergraduate Chemistry and Biochemistry Research** 4  

5. Minimum credits required 130  
   * Students must earn a C grade (2.0) or better in each course.  
   ** Advanced courses in the physical or biological sciences or mathematics may be substituted with permission of the head of the chemistry and biochemistry department. However, the student will not receive an ACS-certified degree.  

   Note: Upon completing the recommended curriculum and fulfilling all general university requirements, the student will receive a bachelor's degree certified by the American Chemical Society.

   Note: The electives must include at least 6 credits at the upper-division level (to satisfy the UAF general degree requirements for 39 upper-division.)

Concentrations: Biochemistry/Molecular Biology, Environmental Chemistry, Forensic Chemistry
Biochemistry/Molecular Biology

1. Complete the general university requirements. (See page 131. As part of the core curriculum requirements, complete: MATH F200X, PHYS F103X and PHYS F104X, or PHYS F211X and PHYS F212X.)

2. Complete the B.S. degree requirements. (See page 136. As part of the B.S. degree requirements, complete: MATH F201X. Chemistry foundation courses may be used toward partial fulfillment of the natural science requirement.)

3. Complete the following program (major) requirements:* 
   - BIOL F115X—Fundamentals of Biology I ........................................ 4
   - BIOL F116X—Fundamentals of Biology II ...................................... 4
   - BIOL F342—Microbiology (4) or BIOL F362—Principles of Genetics (4)
   - CHEM F105X—General Chemistry I .......................................... 4
   - CHEM F106X—General Chemistry II ......................................... 4
   - CHEM F212—Chemical Equilibrium and Analysis ......................... 4
   - CHEM F321—Organic Chemistry I ........................................... 3
   - CHEM F322—Organic Chemistry II ........................................ 3
   - CHEM F324W—Organic Laboratory ......................................... 4
   - CHEM F331—Physical Chemistry I ......................................... 4
   - CHEM F332—Physical Chemistry II ....................................... 4
   - CHEM F434W—Instrumental Methods in Physical Chemistry ........... 3
   - CHEM F440—General Biochemistry Macromolecules (3) or CHEM F451—General Biochemistry Metabolism .................................. 3
   - CHEM F481—Seminar .................................................................. 1
   - CHEM F482O—Seminar ................................................................ 2
   - CHEM F488—Undergraduate Chemistry and Biochemistry Research ** ................................................................. 2
   - CHEM F413W—Analytical Instrumental Laboratory (3) or CHEM F434W—Instrumental Methods in Physical Chemistry (3) ...................... 3
   - CHEM F450—General Biochemistry Macromolecules (3) or CHEM F451—General Biochemistry Metabolism .................................. 3
   - CHEM F481—Seminar .................................................................. 1
   - CHEM F482O—Seminar ................................................................ 2
   - CHEM F488—Undergraduate Chemistry and Biochemistry Research (3) ............................................................................. 3

4. Complete the following:
   - MATH F202X—Calculus III .......................................................... 4

5. Minimum credits required .................................................................. 130
   - Students must earn a C grade (2.0) or better in each course.
   - ** CHEM F202, F402 required for ACS-accredited degree.

Environmental Chemistry

1. Complete the general university requirements. (See page 131. As part of the core curriculum requirements, complete: MATH F200X, PHYS F103X and PHYS F104X, or PHYS F211X and PHYS F212X.)

2. Complete the B.S. degree requirements. (See page 136. As part of the B.S. degree, complete: MATH F201X. Chemistry foundation courses may be used toward partial fulfillment of the natural science requirement.)

3. Complete the following:*
   - CHEM F105X—General Chemistry I ........................................... 4
   - CHEM F106X—General Chemistry II ......................................... 4
   - CHEM F202—Basic Inorganic Chemistry .................................... 3
   - CHEM F212—Chemical Equilibrium and Analysis ......................... 4
   - CHEM F321—Organic Chemistry I ........................................... 3
   - CHEM F322—Organic Chemistry II ........................................ 3
   - CHEM F324W—Organic Laboratory ......................................... 4
   - CHEM F331—Physical Chemistry I ......................................... 4
   - CHEM F332—Physical Chemistry II ....................................... 4
   - CHEM F434W—Instrumental Methods in Physical Chemistry ........... 3
   - CHEM F450—General Biochemistry Macromolecules (3) or CHEM F451—General Biochemistry Metabolism .................................. 3
   - CHEM F481—Seminar .................................................................. 1
   - CHEM F482O—Seminar ................................................................ 2
   - CHEM F488—Undergraduate Chemistry and Biochemistry Research ** ................................................................. 2
   - CHEM F413W—Analytical Instrumental Laboratory (3) or CHEM F434W—Instrumental Methods in Physical Chemistry (3) ...................... 3
   - CHEM F450—General Biochemistry Macromolecules (3) or CHEM F451—General Biochemistry Metabolism .................................. 3
   - CHEM F481—Seminar .................................................................. 1
   - CHEM F482O—Seminar ................................................................ 2
   - CHEM F488—Undergraduate Chemistry and Biochemistry Research (3) ............................................................................. 3

4. Complete the following:
   - MATH F202X—Calculus III .......................................................... 4
   - STAT F300—Statistics .................................................................. 3

5. Complete two of the following courses:*
   - BIOL F115X—Fundamentals of Biology I .................................... 4
   - BIOL F116X—Fundamentals of Biology II ................................... 4
   - BIOL F115X—Fundamentals of Biology I .................................... 4
   - CHEM F105X—General Chemistry I ........................................... 4
   - CHEM F106X—General Chemistry II ......................................... 4
   - CHEM F212—Chemical Equilibrium and Analysis ......................... 4
   - CHEM F321—Organic Chemistry I ........................................... 3
   - CHEM F322—Organic Chemistry II ........................................ 3
   - CHEM F324W—Organic Laboratory ......................................... 4
   - CHEM F331—Physical Chemistry I ......................................... 4
   - CHEM F332—Physical Chemistry II ....................................... 4
   - CHEM F434W—Instrumental Methods in Physical Chemistry ........... 3
   - CHEM F450—General Biochemistry Macromolecules (3) or CHEM F451—General Biochemistry Metabolism .................................. 3
   - CHEM F481—Seminar .................................................................. 1
   - CHEM F482O—Seminar ................................................................ 2
   - CHEM F488—Undergraduate Chemistry and Biochemistry Research ** ................................................................. 2
   - CHEM F413W—Analytical Instrumental Laboratory (3) or CHEM F434W—Instrumental Methods in Physical Chemistry (3) ...................... 3

6. Complete one of the following advanced courses:*
   - BIOL F211X—Principles of Ecology ........................................... 4
   - BIOL F342—Microbiology ........................................................... 4
   - BIOL F443W—Microbial Ecology .............................................. 3
   - BIOL F483—Stream Ecology ..................................................... 3
   - ENV F458—Energy and the Environment ................................... 3
   - NRM F380W—Soils and the Environment .................................. 3
   - ATM F401—Introduction to Atmospheric Science ......................... 3
   - CHEM F402—Advanced Inorganic Chemistry ......................... 3

7. Complete one of the following advanced courses:*
   - CHEM F80—Atmospheric Chemistry ........................................... 3
   - CE F341—Environmental Engineering ........................................ 4
   - GEOS F101X—The Dynamic Earth ............................................ 4
   - GEOS F125X—Humans, Earth, and the Environment .................. 4
   - ATM F101X—Weather and Climate of Alaska ........................... 4

8. Minimum credits required .................................................................. 130
   - Students must earn a C grade (2.0) or better in each course.
   - ** Research topic should study environmental chemistry.
Forensic Chemistry

1. Complete the general university requirements. (See page 131. As part of the core curriculum requirements, complete: MATH F200X; PHYS F103X and PHYS F104X, or PHYS F211X and PHYS F212X.)

2. Complete the B.S. degree requirements. (See page 136. As part of the B.S. degree, complete: MATH F201X. Chemistry foundation courses may be used toward partial fulfillment of the natural science requirement.)

3. Complete the program (major) requirements as listed under Chemistry—B.A. degree.

4. Complete the following chemistry requirements:*
   
   CHEM F402—Inorganic Chemistry ........................................3
   CHEM F450—General Biochemistry Macromolecules (3) or CHEM F451—General Biochemistry Metabolism .................3
   CHEM F488—Undergraduate Chemistry and Biochemistry Research .................................................................2

5. Complete the following justice requirements:* 
   
   JUST F110—Introduction to Justice ...........................................3
   JUST F222—Research Methods ................................................3
   JUST F251—Criminology .........................................................3
   JUST F300X—Ethics and Justice** ............................................3
   JUST F354—Procedural Law ....................................................3
   JUST F454W—Advanced Problems in Procedural Law ..........3

6. Minimum credits required .....................................................130
   * Students must earn a C grade (2.0) or better in each course.
   ** JUST F300X may not be used to fulfill core ethics requirement.

Requirements for Chemistry Teachers (grades 7 – 12)

1. Complete all the requirements of the chemistry B.A. or B.S. degree you wish to seek.

2. All prospective chemistry teachers must complete the following:
   CHEM F450—General Biochemistry Macromolecules (3) or CHEM F451—General Biochemistry Metabolism .................3
   CHEM F488—Undergraduate Chemistry and Biochemistry Research .................................................................4

3. All prospective science teachers must complete the following:
   PHIL F481—Philosophy of Science .............................................3

Note: We strongly recommend that prospective secondary science teachers seek advising from the UAF School of Education early in your undergraduate degree program so that you can be appropriately advised of the state of Alaska requirements for teacher licensure. You will apply for admission to the UAF School of Education’s post-baccalaureate teacher preparation program, a one-year intensive program, during your senior year. Above requirements apply to all candidates who apply to the UAF School of Education Spring 2006 or later for licensure in chemistry.

Minor

Chemistry

1. Complete the following:
   CHEM F105X—General Chemistry I ...........................................4
   CHEM F106X—General Chemistry II ...........................................4

2. Complete the following approved electives:
   CHEM F212—Chemical Equilibrium and Analysis* ..................4
   CHEM F321—Organic Chemistry I .............................................3
   CHEM F322—Organic Chemistry II ............................................3
   CHEM F331—Physical Chemistry I .............................................4
   CHEM F332—Physical Chemistry II .........................................4

3. Complete one of the following additional chemistry lab courses:
   CHEM F202—Basic Inorganic Chemistry ....................................3
   CHEM F324W—Organic Chemistry Lab .......................................4

4. Minimum credits required .....................................................29 – 30

Biochemistry

1. Complete the following foundation courses:
   CHEM F105X—General Chemistry I ...........................................4
   CHEM F106X—General Chemistry II ...........................................4

2. Complete the following:
   CHEM F321—Organic Chemistry I .............................................3
   CHEM F322—Organic Chemistry II ............................................3
   CHEM F331—Physical Chemistry I .............................................4
   CHEM F451—General Biochemistry — Metabolism ..................3

3. Complete two of the following chemistry lab courses:
   CHEM F202—Basic Inorganic Chemistry ....................................3
   CHEM F212—Chemical Equilibrium and Analysis ....................4
   CHEM F324—Organic Chemistry Lab .........................................4

4. Minimum credits required .....................................................28 – 29
All degrees (e.g. B.A., B.S., etc.) require additional courses. Refer to specific degree and program requirements.

Baccalaureate Core Requirements
(Note: all courses for Core must be completed with C- or higher.)

COMMUNICATION (9)
Complete the following:
ENGL F111X .................................................(3)  ______
   ENGL F190H may be substituted.
Complete one of the following:
ENGL F211X OR ENGL F213X ........................... (3)  ______
Complete one of the following:
COMM F131X OR COMM F141X .......................... (3)  ______

PERSPECTIVES ON THE HUMAN CONDITION (18)
Complete all of the following four courses:
ANTH F100X/SOC F100X .................................(3)  ______
ECON F100X OR PS F100X ...............................(3)  ______
HIST F100X ..................................................(3)  ______
ENGL/FL F200X .............................................(3)  ______
Complete one of the following three courses:
ART/MUS/THR F200X, HUM F201X OR ANS F202X ..., (3)  ______
Complete one of the following six courses:
BA F323X, COMM F300X, JUST F300X, NRM F303X,
PS F300X OR PHIL F322X .................................(3)  ______
OR complete 12 credits from the above courses PLUS
* two semester-length courses in a single Alaska Native language or
  other non-English language OR
* three semester-length courses (9 credits) in American Sign
  Language taken at the university level.

MATHEMATICS (3)
Complete one of the following:
MATH F103X, MATH F107X, MATH F161X OR
STAT F200X ...................................................(3 – 4)  ______
   * No credit may be earned for more than one of MATH F107X or
     F161X.
OR complete one of the following:*
MATH F200X, MATH F201X, MATH F202X,
MATH F262X OR MATH F272X ...........................(4)  ______
   *Or any math course having one of these as a prerequisite.

NATURAL SCIENCES (8)
Complete any two (4-credit) courses:
ATM F101X ..................................................(4)  ______
BIOL F100X ...............................................(4)  ______
BIOL F103X ...............................................(4)  ______
BIOL F104X ...............................................(4)  ______
BIOL F111X ...............................................(4)  ______
BIOL F112X ...............................................(4)  ______
BIOL F115X ...............................................(4)  ______
BIOL F116X ...............................................(4)  ______
CHEM F100X ...............................................(4)  ______
CHEM F103X ...............................................(4)  ______
CHEM F104X ...............................................(4)  ______
CHEM F105X ...............................................(4)  ______
CHEM F106X ...............................................(4)  ______
CHEM F107X ...............................................(4)  ______
CHEM F108X ...............................................(4)  ______
CHEM F109X ...............................................(4)  ______
GEOG F111X ...............................................(4)  ______
GEOG F100X ...............................................(4)  ______
GEOS F100X ...............................................(4)  ______
GEOS F101X ...............................................(4)  ______
GEOS F112X ...............................................(4)  ______
GEOS F120X ...............................................(4)  ______
GEOS F125X ...............................................(4)  ______
MSL F111X ................................................(4)  ______
PHYS F102X ...............................................(4)  ______
PHYS F103X ...............................................(4)  ______
PHYS F104X ...............................................(4)  ______
PHYS F115X ...............................................(4)  ______
PHYS F116X ...............................................(4)  ______
PHYS F117X ...............................................(4)  ______
PHYS F211X ...............................................(4)  ______
PHYS F212X ...............................................(4)  ______
PHYS F213X ...............................................(4)  ______

LIBRARY AND INFORMATION RESEARCH (0 – 1)
Successful completion of library skills competency test OR
LS F100X or F101X prior to junior standing.........(0 – 1)  ______

UPPER-DIVISION WRITING AND ORAL COMMUNICATION (0)
Complete the following:
Two writing intensive courses designated (W) ............(0)  ______
and one oral communication intensive course
designated (O) ............................................(0)  ______
   OR two oral communication intensive courses designated
     (O/2), at the upper-division level (see degree and/or major
     requirements) .......................................(0)  ______

CORE CREDITS REQUIRED .................................................. 38 – 39
Minimum credits required for degree ...................... 120
