## CIVIL ENGINEERING

College of Engineering and Mines Department of Civil and Environmental Engineering 907-474-7241

www.uaf.edu/cem/cee/

## **B.S.** Degree

Minimum Requirements for Degree: 134 credits

Civil engineers plan, design and supervise the construction of public and private structures such as space launching facilities, offshore structures, bridges, buildings, tunnels, highways, transit systems, dams, airports, irrigation projects, and water treatment and distribution facilities.

Civil engineers use sophisticated technology and employ computeraided engineering during design, construction, project scheduling and cost control project phases. They are creative problem solvers involved in community development and the challenges of pollution, deteriorating infrastructure, traffic congestion, energy needs, floods, earthquakes and urban planning.

The civil engineering program at UAF began in 1922 and graduated its first major in 1931. Many of the more than 800 men and women who have graduated since then work in a wide range of positions all over Alaska. More than 60 percent of Alaska's professional engineers practice in civil engineering. The program at UAF has been accredited since 1940 and is currently accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology. All engineering programs in the department give special attention to problems of northern regions.

The civil engineering program educational objectives are:

- 1. Graduates will have a strong fundamental scientific and technical knowledge base as well as strong critical thinking skills.
- Graduates will apply their engineering skills to critically analyze and interpret data and be proficient in engineering design accommodating the total project environment.
- 3. Graduates will be able to communicate with the technical, professional and broader communities in written, verbal and visual formats, including interacting in interdisciplinary contexts.
- Graduates will demonstrate high standards in ethical, legal and professional obligations to protect human health, welfare and the environment
- Graduates will be active in the professional civil engineering community, actively contribute to the profession and pursue lifelong learning.

Graduate students may enter one of two programs: the master of civil engineering is for students whose goal is broad professional practice, and the master of science degree is for those who favor an emphasis on research and specialized study.

In addition to general civil engineering courses, the department offers specialties in transportation, geotechnical, structures, water resources, hydrology and environmental studies. These courses emphasize principles of analysis, planning and engineering design in northern regions.

A master's degree program can include courses in environmental engineering, engineering management and other areas. An advanced degree in environmental engineering administered within the civil engineering department is available.

For more information about the civil engineering program mission, goals and educational objectives, visit www.uaf.edu/cem/cee/about/.

## Major — B.S. Degree

- 1. Complete the general university requirements. (See page 131. As part of the core curriculum requirements, complete: MATH F200X\*, CHEM F105X\* and CHEM F106X\*.)
- Complete the B.S. degree requirements. (See page 136. As part
  of the B.S. degree requirements, complete: MATH F201X\*; PHYS
  F211X\* and PHYS F212X\*.)
- 3. Complete the following program (major) requirements:\* CE F112—Elementary Surveying......3 CE F302—Introduction to Transportation Engineering .......3 CE F326W—Introduction to Geotechnical Engineering .......4 CE F331—Structural Analysis......3 CE F334—Properties of Materials......3 CE F400—FE Exam ......0 CE F432—Steel Design......3 CE F441—Environmental Engineering......4 DRT F170—Beginning AutoCAD......3 ES F101—Introduction to Engineering......3 ES F201—Computer Techniques ......3 ES F331—Mechanics of Materials....... ES F341—Fluid Mechanics ......4 ESM F450W—Economic Analysis and Operations......3 GE F261—General Geology for Engineers......3 MATH F202X—Calculus III .....4 MATH F302—Differential Equations ......3
- \* Students must earn a C grade (2.0) or better in each course.
- \*\* Technical electives must include 3 credits in the field of environmental engineering or transportation, 6 credits of CE, ENVE, ESM courses or approved technical courses, and 3 credits of either ES F307 or ES F346. Students must earn a C grade (2.0) or better in each technical elective course. Up to two graduate-level courses may be used towards graduation. Graduate-level courses must be approved by student's advisor and the student must be within two semesters of graduation and have at least a 3.0 GPA to take graduate-level courses.

Note: The ability to use computers for normal class work is expected in all engineering classes above the F100-level.

Baccalaureate Core Requirements	NATURAL SCIENCES (8)	
(Note: all courses for Core must be completed with C- or higher.	Complete any two (4-credit) courses:	(4)
COMMUNICATION (9)	BIOL F100X	
	BIOL F103X	(4)
Complete the following:	BIOL F104X	
ENGL F111X(3)	BIOL F111X	(4)
ENGL F190H may be substituted.	BIOL F112X	
Complete one of the following:	BIOL F115X	
ENGL F211X <b>OR</b> ENGL F213X(3)	BIOL F116X	
Complete one of the following:	CHEM F100X	
COMM F131X <b>OR</b> COMM F141X(3)	CHEM F103X	
	CHEM F104X	
	CHEM F105X	
PERSPECTIVES ON THE HUMAN CONDITION (18)	CHEM F106X	
Complete all of the following four courses:	GEOG F111X	
ANTH F100X/SOC F100X(3)	GEOS F100X	
ECON F100X <b>OR</b> PS F100X(3)	GEOS F101XGEOS F112X	
HIST F100X(3)	GEOS F120X	
ENGL/FL F200X(3)	GEOS F125X	
Complete one of the following three courses:	MSL F111X	
ART/MUS/THR F200X, HUM F201X <b>OR</b> ANS F202X (3)	PHYS F102X.	
Complete one of the following six courses:	PHYS F103X	
BA F323X, COMM F300X, JUST F300X, NRM F303X,	PHYS F104X	
PS F300X <b>OR</b> PHIL F322X(3)	PHYS F115X	
	PHYS F116X	
OR complete 12 credits from the above courses PLUS	PHYS F175X	
two semester-length courses in a single Alaska Native language or	PHYS F211X	(4)
other non-English language <b>OR</b>	PHYS F212X	(4)
three semester-length courses (9 credits) in American Sign	PHYS F213X	(4)
Language taken at the university level.		
MATHEMATICS (2)	LIBRARY AND INFORMATION RESEARCH (C	
MATHEMATICS (3)	Successful completion of library skills competency test <b>OR</b> LS F100X or F101X prior to junior standing(0 – 1)	
Complete one of the following: MATH F103X, MATH F107X, MATH F161X <b>OR</b>	LS F100X or F101X prior to junior standing	(0 – 1)
STAT F200X(3 – 4)	UPPER-DIVISION WRITING AND ORAL COM	MMINICATIO
* No credit may be earned for more than one of MATH F107X or		intervient 10
F161X.	Complete the following:	(0)
OR complete one of the following:*	Two writing intensive courses designated (W) and one oral communication intensive course	(0)
MATH F200X, MATH F201X, MATH F202X,	designated (O)designated	(0)
MATH F262X <b>OR</b> MATH F272X(4)(4)	<b>OR</b> two oral communication intensive cours	
*Or any math course having one of these as a prerequisite.	(O/2), at the upper-division level (see degree requirements)	and/or major
	CORE CREDITS REQUIRED	38 –
	Minimum credits required for degree
