Certificate; A.A.S. Degree

The certificate program is presently suspended.

Minimum Requirements for Degree: 60 credits

This program prepares students for employment as early childhood and child care providers, and improves the skills of those already employed in the field. Graduates pursue opportunities with child care centers, head start programs, early childhood education programs, child welfare service agencies, scouting services, staff training, program licensing and public school teacher aide programs. This program meets standards specified by the National Association for the Education of Young Children.

This program in early childhood is for students enrolling in college for the first time as well as for those who are educated in other subject areas but desire retraining for employment in this field. Through course work, students gain the knowledge and skills they need to meet state of Alaska requirements for employment as directors or teachers in licensed centers, as well as aids in elementary schools. Course work also fulfills minor or concentration requirements for degrees in other disciplines.

Students entering the A.A.S. degree should meet with an early childhood advisor to discuss a specific course of study. The required early childhood courses offered by any of the UAF campus sites may be used to meet graduation requirements for the degree.

The courses for the A.A.S. degree lay the foundation for the B.A. in child development and family studies.
