

Certified Food Protection Manager Workshop

Thursday, Feb. 22 • 8 a.m.-5 p.m.

Taught by Julie Cascio, Mat-Su District Extension Agent

What is a certified food protection manager?

A certified food protection manager (CFPM) is responsible for monitoring and managing all food establishment operations to ensure that the facility is operating in compliance with food establishment regulations.

A CFPM is knowledgeable about food safety practices and uses this knowledge to provide consumers with safe food, protect public health and prevent foodborne illnesses. Alaska regulations require food establishments to have at least one CFPM on staff.

How do I become certified?

After you have completed this one-day training you must take and pass a certification exam before you work as a CFPM. Testing for this certification is computer-based.

NOTE: Test may be immediately after class or within a week, depending on when proctor is available in your community.

\$200 (includes class, study guide and one proctored test)
