

Administrative Services Bulletin: Thursday, July 16, 2009
By Edith Curry, Fire Chief, University Fire Department

What's new?

On July 11, 2009, 18 new recruit firefighters graduated from the University Fire Department's 2009 Summer Recruit Academy. The Recruit Academy started on June 8th and ran 6 days a week through the 10th of July. The student firefighters tested for their State Firefighter 1 certification on the 9th & 10th of July. They join the rest of our student firefighters as students attending the University of Alaska Fairbanks.

What's next?

The Fire Department will begin campus inspections prior to the start of the fall semester. As a reminder, no storage, or obstructions of any kind, can be located in an exit way. We are looking forward to meeting all the new Building Captains and working with them to ensure safe and code compliant facilities on campus.
