Disability Services

Disability Services provides services for students with disabilities to ensure equal access to the educational opportunities offered at the University of Alaska Fairbanks. Students with disabilities in need of accommodations should contact the Director of Disability Services at (907)-474-5655 as soon as possible and preferably by the start of each semester. Students must provide documentation to support the need for the accommodations requested. A faculty handbook is available at http://www.uaf.edu/disability/pdf/dsh.pdf.

Eligibility

Disability Services (DS), located at the Center for Health and Counseling, provides services for UAF students with documented disabilities to ensure equal access to educational opportunities. Services are free of charge and available to any students with disabilities who are enrolled for at least 1 credit at UAF regardless of whether they pay the Health Center fee.

Documentation

In order to receive consideration for academic accommodations or a housing exemption based on a disability, DS must have appropriate and current information documenting the disability. Documentation must contain:

- Specific diagnosis and description of the disability.
- Names of any standardized tests that were given to determine the disability.
- Description of any treatment that the student is undergoing or has undergone related to the disability.
- Description of the probable impact of the disability in a university setting.
- For diagnosis of a specific learning disability, objective evidence of a substantial limitation to learning must be provided.

Accommodations

Academic accommodations are determined on an individual basis. Some examples of possible accommodations are:

- Real time transcription
- Sign language interpreters
- Adaptive equipment and/or assistive technology
- Enlarged materials
- Note takers
- Tape recorded lectures
- Scribes
- Audio formatted versions of texts
- Special equipment as needed

Assistive Technology & Equipment

There are adaptive computer workstations located at the Rasmuson Library, Bunnell computer Lab, and the Writing Center. These workstations are available for all UAF students, staff, faculty and community. Adaptive equipment checkout is based upon reasonable and appropriate documented accommodations and is prioritized by need. For further information or to check out equipment, call DS at (907) 474-7043.

The ADA

The 1990 Americans with Disabilities Act (ADA) was amended earlier this year. The Amended Act retains the ADA's basic definition of "disability" as an impairment that substantially limits one or more major life activities, a record of such an impairment, or being regarded as having such an impairment.

Alaska Career Information System (AKCIS)

The Alaska Career Information System (AKCIS) is an interactive, web-based education and career-planning resource designed specifically with Alaskan students in mind. AKCIS includes many exciting features such as: more than 500 Occupations including Alaska and national information, and 375 related videos; more than 600 programs of study & training; information about all U.S. accredited 2-year, 4-year, and graduate schools; job-searching and job-keeping activities; self-employment information; military employment; and almost 500 learning activities. However, one of the most popular features of the program for students and academic advisors and career counselors alike is the Reality Check - a wonderful resource that allows users to compare what lifestyle they want, how much they would spend each month, and what schooling and careers they will need to meet that income level. The free online system is available through the Academic Advising Center, Career Services, and TVC’s Student Assistance and Advising Center.

DISCOVER

Students use DISCOVER to access research-based assessments of career-relevant interests, abilities, and job values that help individuals consider career options that are a good match for them. ACT’s World-of-Work Map organizes occupations into six clusters, parallel to Holland's Hexagon, to help users focus on preparing for career options that fit them best. DISCOVER's comprehensive, developmental guidance process helps users identify their strengths and needs, make good career decisions, and build a plan based on their personal profiles. The system offers complete, current databases of occupations, college majors, schools and training institutions, financial aid/scholarships, and military options. Students can also learn how to develop good job-seeking skills through effective resumes, cover letters, job applications, and interviewing skills. UAF has unlimited access to DISCOVER, but students need a free token to access the program. Tokens can be obtained by contacting the Academic Advising Center at advising@uaf.edu or (907) 474-6396, or 1-888-823-8780.

Myers-Briggs Type Indicator (MBTI)

Students may take the Myers-Briggs Type Indicator (MBTI) through Career Services as a stand-alone instrument or in tandem with the Strong Interest Inventory (SII). The MBTI indicates a student’s preferred manner of taking in and evaluating information and will identify a student’s preferred style of working, decision-making and communicating. It can help students evaluate how they are likely to operate in a particular setting and job. Make an appointment with a UAF career counselor to take the inventory online and go over the results. Costs may vary depending on whether the student takes it as part of a package or individually.

Strong Interest Inventory (SII)

The Strong Interest Inventory (SII) assessment measures career and leisure interests. The assessment is often used to aid people in making educational and career decisions. The Strong assessment measures interests in four main categories of scales: 6 General Occupational Themes (GOTs), 30 Basic Interest Scales (BISs), 5 Personal Style Scales (PSSs), and 244Occupational Scales (OSs): The Strong Interest inventory assesses your interests and compares them to those of people working in various occupations. Students will receive feedback on their strongest interest themes as well as which occupational titles match these interests. Students must set up an appointment with a Strong-credentialed academic advisor or career counselor to receive the results of the online inventory. Contact the Academic Advising Center, Career Services, or TVC Student Assistance & Advising Center to receive your online userid and password. Career Services has a program wherein students may take the SII in tandem with the Myers-Briggs Type Indicator (MBTI). Costs may vary depending on whether the student takes it as part of a package or individually.
Financial Aid Eligibility

To receive any financial aid, students must:
1. Be admitted to a program leading to a degree, diploma, or certificate.
2. Be making satisfactory academic progress toward their educational goal.
3. Submit an application to the proper agency administering the financial aid programs.

In addition to these requirements, to receive Federal Title IV funds, students must not be in default on any Federal Title IV loan or owe a refund on any Federal Title IV grant.

How Do Students Apply?

Complete and mail the Free Application for Federal Student Aid (or apply online at: http://www.fafsa.ed.gov/) to apply for all financial aid programs. Completing these steps constitutes application for any financial aid offered at UAF, except student loans, scholarships and State of Alaska programs. A separate application is required for each loan program. Students may be required to submit other documents before aid is received. The forms needed to apply for federal, state, and UAF financial aid programs are available at the Financial Aid Office at UAF or online at www.uaf.edu/finaid.

Students may apply for the financial aid throughout the school year. Some conditions apply, contact the Financial Aid Office.

The Financial Aid Office is located on the first floor of the Eielson Building on the Fairbanks campus of the University of Alaska Fairbanks. Office hours are from 8 a.m. to 5 p.m., Monday through Friday. Contact them at 474-7256 or 1-888-474-7256, email financialaid@uaf.edu, or go online at www.uaf.edu/finaid.

What Does It Take to Remain Eligible?

To continue to receive financial aid, UAF requires aid recipients to be “in good standing” which means undergraduates must earn a cumulative 2.00 or higher grade point average (GPA); graduate students must maintain at least a 3.00 GPA to be eligible. The Financial Aid Office monitors the academic progress of both aid and non-aid recipients. The maximum number of credits for which a student may receive financial aid is 150% of the published credit requirements of his/her educational program (195 credits for a bachelor's degree and 90 credits for an associate's degree comprise 150% of the basic graduation requirements). The credit count starts from the very first credit attempted, regardless of whether or not the student received financial aid. Any course for which a student receives credit, including transferred courses, repeated courses, and challenged courses, are included in this calculation.

Undergraduate students who complete at least 9 credits, but less than 12, and meet minimum GPA requirements will receive financial aid on a probationary basis. Financial aid still be suspended for students who have two consecutive semesters of course completion at less than 12 credits. Financial aid will also be suspended for students who fail to complete less than 9 credits, have a cumulative GPA of less than 2.00, or have exceeded the maximum number of semesters or credit hours allowed for receipt of aid. Any student whose aid has been suspended may appeal that decision. A written appeal which states the reasons for the failure to maintain satisfactory progress standards and the steps taken to meet those standards in the future is required. Appeals should be submitted to the Financial Aid Office. A complete description of the satisfactory progress requirements is available at the Financial Aid Office as well as at the website: www.uaf.edu/finaid.
Health and Counseling

The Center for Health and Counseling provides services to assist academic advisors who have advisees who are in exhibiting signs of stress. Their pamphlet Helping Students in Distress can be downloaded at http://www.uaf.edu/cht/Prevention%20Pamphlet%209-9.pdf. Emergency and after hour care information can be found at http://www.uaf.edu/cht/emergency.html.

Students must pay the Health Center Fee to be eligible for health care, counseling, and student health insurance services.

Medical Services
Primary health care and some continuing care are provided by qualified professional staff. General office visits for illness and injury are provided at no charge. Physical examinations, medications, laboratory services, and medical supplies are provided at reduced cost. Students should call (907) 474-7043 for appointments. Emergency appointments are available when necessary.

Counseling
Counseling staff offer individual, group, and crisis intervention counseling. Counselors, all with graduate level training, provide assistance for a variety of personal and interpersonal issues. Students are encouraged to schedule appointments by calling (907) 474-7043. In an emergency, a student is usually seen the same day.

Health Education
Professional staff provide information and referral for individuals and groups seeking to maintain or improve upon physical and mental health.

Alcohol Services
Evaluation for alcohol and other drug use and follow-up counseling are provided by the Center. Call for details on alcohol evaluation, education and services.

Student Health Insurance
The student health insurance program is administered through the Center. Health Insurance is required on the UAF campus. Students who do not have health insurance must have the premium added to their bill at fee payment. Student health insurance is available for the full year or for each semester and summer individually; full year coverage is recommended for continuous coverage. An Insurance Coordinator is available to answer questions about policy coverage and to assist with information about how to file claims.

Honors Program

The UAF Honors Program provides academic and social enrichment opportunities for exceptionally talented, creative and academically motivated students; promotes the highest standards of academic, professional, and personal achievement; and encourages students to think critically and to act in ways that benefit society. Students in the Honors Program experience small classes, direct contact with top faculty members, and a flexible curriculum. They participate in an intellectual and social community of student scholars, and are encouraged to pursue their own intellectual interests. The Honors Program is based on the conviction that genuine achievement in college means broad competence in areas outside a student’s major field of specialization as well as excellence within it.

Undergraduate students from all disciplines are eligible for admission to the Honors Program. The standards for admission for incoming freshmen are a minimum high school GPA of 3.6 and either a minimum composite ACT score of 29 or a minimum cumulative SAT score of 1875. Variance in either requirement is allowed for superior performance in the other requirement. UAF students with sophomore or higher standing and with a GPA of at least 3.5 are encouraged to apply, as are transfer students with the same level of accomplishment. All applicants also submit a writing sample. The Program reserves the right to ask for letters of recommendation.

Students who are not enrolled in the Honors Program may be admitted to Honors classes upon recommendation of their advisor or the class instructor. Students seen during advising who seem gifted in one or more areas and who are interested in taking an enriched class may obtain information about the class from the Honors Program. A list of Honors courses offered each semester can be found in the class schedule under “Honors – HONR”; Honors sections are designated with the “FH” label.

Enrollment by all students in Honors classes is by permission only. Clearance is granted only through the Honors Program Office.

Please make sure that students who are enrolled in the Honors Program have seen their Honors advisor to determine which Honors classes they should take before they are enrolled in other UAF courses.

For more information about the program, including the requirements for graduation in Honors, call Channon “C.P” Price, Director, or Kerrie Dufseth, Administrative Assistant, 474-6612, see the website at www.uaf.edu/honors/, email the program at honors@uaf.edu, or write to: Honors Program, 520 Copper Lane, Fairbanks, Alaska, 99775.

Learning Assistance – Courses

Developmental Education [http://www.uaf.edu/deved/]

Developmental English
- DEVE F060 Preparatory College Writing I (3 credits)
- DEVE F068 College Writing Skills (Spelling/Vocabulary, Sentence & Paragraph, Grammar Usage, ESL) (1 credit each)
- DEVE F070 Preparatory College Writing II (3 credits)
- DEVE F109 Preparatory College Writing III (3 credits)

Developmental Math
- DEVM F050 Pre-Algebra (3 credits)
- DEVM F051 Math Skills Review (1 credit)
- DEVM F060 Elementary Algebra (3 credits)
- DEVM F061 Review of Elementary Algebra (1 credit)
- DEVM F062 Alternative Approaches: Elementary Algebra (3 credits)
- DEVM F065 Mathematics Skills (1 credit)
- DEVM F071 Review of Intermediate Algebra (1 credit)
- DEVM F081 Review of Basic Geometry (1 credit)
- DEVM F082 Hands-on Geometry (1 credit)
- DEVM F093 Advanced Math Fast Track: Elementary/Intermediate Algebra (1 credit)
- DEVM F093 Math Fast Track: Pre-Algebra/Elementary Algebra (1 credit)
- DEVM F105 Intermediate Algebra (3 credits)
- DEVM F106 Intensive Intermediate Algebra (4 credits)

Developmental Studies
- DEVS F052 Reading Enhancement (3 credits)
- DEVS F058 Reading Skills (3 credits)
- DEVS F065 Spelling/Improvement (1 credit)
- DEVS F066 Vocabulary Development (1 credit)
- DEVS F100 Introduction to Science (4 credits)
- DEVS F101 Skills for College and Career Success (3 credits)
- DEVS F102 Introduction to Distance Education (1 – 3 credits)
- DEVS F104 University Communications
- DEVS F105 Intensive Reading Development
- DEVS F106 Speed Reading
- DEVS F107 Reader-Writer Workshop (3 credits)
- DEVS F108 Study Skills Lab (1 credit)
- DEVS F110 College Success Skills (1 credit) (one section for Student Support Services SSS students)
- DEVS F111 Reading in the Mathematical Sciences (1 credit)
- DEVS F112 Reading in the Natural Sciences (1 credit)
- DEVS F150 Life Work Planning (1 credit)
- DEVS F160 The Resume: Key to Success (1 credit)
- DEVS F185 Straight Thinking (3 credits)

Rural Student Services (RSS) [http://www.uaf.edu/ruralss/]
- RD F100 College Seminar (1 credit)

Supplemental Instruction (SI) (designated sections only)
[http://www.uaf.edu/acadadv/student/resources/S_Instruction.html]
- BIOL F111X Human Anatomy & Physiology I (4 credits)
- BIOL F112X Human Anatomy & Physiology II (4 credits)
- BIOL F115X Fundamental of Biology I (4 credits) Fall Only
- BIOL F116X Fundamentals of Biology II (4 credits) Spring Only
- CHEM F105X General Chemistry I (4 credits)
- CHEM F106X General Chemistry II (4 credits)
- HIST F100X Modern World History (3 credits)
- MATH F103X Concepts & Contemporary Applications of Math (3 credits)
- MATH F262X Calculus for Business & Economics (4 credits)
- MATH F272X Calculus for Life Sciences (3 credits)
Learning Assistance - Don’t Cancel That Class!

If you know you will be missing class during the semester, contact an academic advisor from the Academic Advising Center to substitute for you so you do not have to cancel that class! The staff member can provide information concerning:

- Making the Most of the Academic Advising Relationship
- Selecting Majors
- Developing an Educational Plan for your students

A workshop from the Study Skills 101 series or University Skills 201 series workshops could also be presented to your class. Topics include:

- Time Management
- Note Taking Skills
- Test Taking/Learning Styles
- Test Anxiety
- How to Read a Textbook
- Creating a Four-Year Degree Plan
- Unofficial Degree Evaluation (using UAOnline and DegreeWorks)

Fill out the enterable pdf form at this web site http://www.uaf.edu/advising/forms/dontcancelregform.pdf to sign up for the program. Two week’s notice is preferred. Faculty must include their name, email, phone number, course name and/or number, course time and location, number of students, and topic they would like presented in class that day. Attendance will be taken and returned to the faculty member.

Please note that Academic Advising Center staff will not teach the content area of your course.

Learning and Study Strategies Inventory (LASSI)

The Learning and Study Strategies Inventory (LASSI) is designed to help students develop or expand their awareness about how they study and learn. The LASSI helps students assess their strengths and weaknesses in ten different areas related to being a strategic and successful learner in college. Research has shown that each of these areas is important for succeeding in higher education. Using the information gleaned from LASSI can help students target their efforts to become a more strategic and successful student. Students may access the free online LASSI inventory by contacting the Academic Advising Center at advising@uaf.edu, (907) 474-6396, or 1-888-823-8780. A paper and pencil version of the LASSI is available through Rural Student Services and Student Support Services.

Visual Auditory Reading/Writing, Kinesthetic (VARK)

The Academic Advising Center has obtained permission for UAF students to use the New Zealand-based free Visual Auditory Reading/Writing, Kinesthetic (VARK) questionnaire at VARK http://www.vark-learn.com/ free of charge. VARK is a questionnaire that provides students with a profile of their learning preferences. These preferences are about the ways receive input and give-out information. VARK preferences can be used to help students develop additional, effective strategies for learning and for improving their communication skills. No password or token is required. Instructors are also allowed to have students use this program in their courses.

A+dvancer

The online A+dvancer college readiness program is available at Kuskokwim Campus. A+dvancer provides alignment to the ACCUPLACER placement tests, instantaneous, skill-level detail reporting, and prescriptive refresher coursework.

ALEKS

Students in Developmental Math courses and Student Support Services have access to the ALEKS online math tutoring program.

SkillsTutor

UAF students may receive a free password to access the online SkillsTutor basic skills tutorial program. Refresher lessons in arithmetic, geometry, elementary algebra, intermediate algebra, grammar, spelling, vocabulary, writing, and reading will assist students in preparing for the ACCUPLACER placement test or to improve their grades in developmental-level courses. Students may obtain a free password through the Academic Advising Center advising@uaf.edu, (907) 474-6396, or 1-888-823-8780. Rural Student Services, and CRCD campuses also have access to SkillsTutor and can enter students into the program.

Library Services

The Library is a Service Organization
Rasmuson Library has great study spaces with natural light and comfortable furniture as well as walk-up ports and wireless networking. Levels 2, 5 and 6 are designated quiet study areas. The 24 hour study area and the computer lab located on Level 4 are accessible with a Polar Express ID card during those hours that the library is closed.

Reference Services
If students have a question about a term paper topic, research interest, or source of information on the Internet, Library Services can help them find the information they need. They can ask in person at the Reference Desk on Level 4 (ground floor) of the Rasmuson Library, or contact Library Services by phone or e-mail. Students can also access the new chat service by clicking on the "Ask a Librarian" button on the Rasmuson Library home page. Reference services may be reached at:

Web page: www.uaf.edu/library
Phone: (907) 474-7482
E-mail: fyref@uaf.edu

Media Services
The library provides a number of media services including videotape duplication, lamination, and minor tape repair.

Equipment Loan
The Rasmuson Library loans audio/visual equipment to the students, faculty and staff of UAF for on-campus, academic use. Laptop computers, video/data projectors, digital cameras and camcorders, sound systems, audio-conference pods, cassette recorders and more are available for loan. Reserving items in advance is recommended.

Room Scheduling
Students may schedule rooms 502 or 503 for small group study, discussions or video viewing. Contact the Media Desk at (907) 474-7072. Other group study rooms on Level 3 are available on a first-come, first-served basis.

Servicemembers Opportunity Colleges (SOC)

SOC is a system of college curricula designed for soldiers and their adult family members. It provides military students the opportunity to complete a college degree program (A.A., associate of arts or A.A.S., associate of applied science) without suffering a loss of credits because of frequent changes in duty station. SOC curricula are offered by colleges and universities and are accessible to most military installations worldwide.

UAF’s SOC degree programs include:

- A.A. General Program
- A.A.S. Culinary Arts
- A.A.S. Applied Accounting

Active duty military, National Guard, and adult dependents are eligible to participate and there is no membership fee. Once admitted into a UAF degree program, students can receive college credit for their military experience. SOC students can take up to five years to complete their UAF degree. They need to earn at least six credits at UAF with a grade point average of 2.0 or higher.

For more information, contact Admissions at admissions@uaf.edu or 1-800-478-1823 or (907) 474-7500.

Students, staff or faculty seeking information regarding SOC should contact the Office of Admissions at admissions@uaf.edu, or 1-800-478-1823 or (907) 474-7500.
The Student Support Service (SSS) Program provides opportunities for academic development, assists students with basic college requirements, and serves to motivate students towards the successful completion of their degree program.

Services include:
- drop-in tutoring center
- instruction in mathematics skills
- tutorial services
- academic advising and mentoring
- cultural and social engagement
- use of laptop computers, labs, and other technology benefits
- direct financial assistance to qualified Pell Grant recipients
- structured first year program for freshmen

All services are provided free of charge to eligible students. The program is staffed with both professional and certified student tutors. To receive SSS program services, a student must have academic need and meet one of the following criteria:

- Financially limited, according to federal criteria
- A first-generation college student (meaning neither parent has earned a baccalaureate degree)
- A student with a documented physical or learning disability

At UAF, participants must also be enrolled in at least six hours of academic study, and intend to obtain a baccalaureate degree.

The UA Scholars Award is an $11,000 cash award, to be used at any of the UA campuses, given to students graduating in the top 10% of their high school class. Scholars are selected after the completion of their junior year. The award is posted to the student’s account after he or she enrolls at the University in a degree program.

The UA Scholars Award is given out in increments of $1,375 per semester until a student earns a degree or up to eight (8) semesters. The UA Scholars Award cannot be used for graduate (600 level) classes.

In order for the UA Scholars Award to be released, the Scholar must take at least 12 credits per semester and maintain a 2.5 GPA each semester. If either of these requirements are not met, the UA Scholars Award will not pay out the following semester.

UA Scholar Awards can be used by UAF students who choose to participate in National and International Exchange programs. Check with the National Student Exchange Coordinator or the Office of International Programs to coordinate an exchange and make arrangements for having the UA Scholars Award pay out while you are away from campus.

The UA Scholars Award can be combined with other scholarships, tuition waivers, awards or grants.

For questions concerning the UA Scholars Award, contact Jessica Bennett in the Office of Admissions (474-6848) or Julie Parshall, in Financial Aid (474-7256).

If a student moves into the top 10% his or her senior year, he or she is still eligible for the award. The student should contact Jessica Bennett for additional details.

Students can postpone his or her award for two (2) semesters, though all deadlines must still be met immediately following his or her senior year.
