Start Date: April 5
Stop Date: April 9, 2011

Subject: Solar design workshop April 9 in Fairbanks

Details:
Cooperative Extension Service community sustainability coordinator Rich Seifert [SIGH-fert] and Greg Egan will teach a solar design workshop Saturday, April 9, in Schaible Auditorium on the UAF campus. The workshop, Moving Toward the Ultimate Solar Superinsulated Home, will run from 10 a.m.-4 p.m.

The workshop will cover Alaska-specific solar aspects, recent experience with solar hot water installations, photovoltaics and optimizing passive design with energy conservation. Egan, an electrician who runs a solar installations business, wrote the photovoltaics chapter of the fourth edition of “A Solar Design Manual for Alaska,” which will be used in the course. A $15 fee includes the manual. Call Deb Tindell at 907-474-7201 or 907-474-6366 for more information or to register.
