FOR IMMEDIATE RELEASE: Dec 12, 2014
CONTACT: Debbie Carter, Extension information officer, 907-474-5406, dscarter@alaska.edu

The University of Alaska Fairbanks Cooperative Extension Service will host another rocket stove workshop Dec. 17 in Fairbanks.

Extension energy specialist Art Nash will offer the workshop from 5:30 to 8 p.m. at the Cold Climate Housing Research Center at 1000 Fairbanks St.

Participants will build their own rocket stoves from cans and will receive a do-it-yourself wood burn box. Rocket stoves burn small-diameter wood and wood pellets efficiently and are useful for cooking and heating in camps and emergency situations. Eastern Alaska forester Glen Holt will also talk about efficient wood care and handling.
