Performance Standards & Best Practices

Subject: Smoke Free Environment

UAF policy states that smoking is prohibited in all nonresidential university facilities open to the public and all public areas of all residential university facilities, [P05.12.092.] Facilities Services’ standard also prohibits smoking in University owned and operated vehicles.

The University has made every effort to adequately sign public buildings clearly stating that the buildings are to be smoke free and to communicate the policy with the campus community.

This Performance Standard serves as a reminder and as clarification that anyone smoking in an undesignated area or any University vehicle can be issued a citation (ticket). Facilities Services has over 160 University vehicles that we use and are extremely visible on campus. Please lead by example and do not smoke in any University vehicle.

Progressive discipline will be implemented in the event that this policy is ignored. Additional information on University Regulations, Regent’s Policy, or Alaska Statute, may be obtained online at http://info.alaska.edu/ua/bor.
