This spring, the Geophysical Society of Alaska has scholarships available for deserving junior or senior Alaska undergraduates or graduate students studying earth science at Alaska universities. Consideration will also be given to Alaska residents studying earth science at outside Universities. The amount of each scholarship this year will be $1,000 to $2,000. Individual merit will dictate the exact amount of each award based on the consensus of our Scholarship Committee.

**Eligibility:**

1) You must be a full-time junior/senior Alaska undergraduate or graduate student *taking at least 12 undergraduate credit hours or 9 graduate credit hours* at an Alaska University. Consideration will also be given to Alaska residents studying at outside Universities.

2) Your academic emphasis (major or minor) is earth science or a very closely related natural science.

**Applications Should Include:**

1. A letter describing your personal and educational career goals, your interest in the earth sciences, your financial need and how you would use
the scholarship funds. Pertinent work history and extracurricular activities should also be included.

2. Recent transcripts of all your college-level academic experience (unofficial copies will suffice). *Important:* The grading system used at that institution and a key for abbreviations must be included with the transcript.

3. A thesis proposal if you are a graduate student.

4. Two letters of recommendation from someone familiar with your academic record. A third letter may be included if it contains important additional information.

The judges will take into account *ALL* facets of the information we receive. Priority will be given to those individuals with more than casual focus toward earth science or a very closely related natural science. **To be considered, applications should be marked to the attention of the Scholarship Committee and must be received no later than Friday, January 31, 2014.** Please send applications to beth.w.moore@cop.com or to the following address:

**Geophysical Society of Alaska**  
P.O. Box 100196  
Anchorage, Alaska 99510-0196  
Attention: Scholarship Committee

Judging will occur shortly thereafter. If you expect to be at a different address after that date, please let us know so we can notify you of the results. We look forward to hearing from you soon.

For more information please contact Beth Moore, Chairman of the Scholarship Committee by phone at (907)263-4188 or e-mail beth.w.moore@cop.com.
**Society of Exploration Geophysicists Scholarships**

The Geophysical Society of Alaska sponsors another scholarship through the Society of Exploration Geophysicists Foundation that is intended for Alaska undergraduate and graduate students studying geophysics or a closely related science. This scholarship is available for any student from Alaska studying in or outside of Alaska.

The Society of Exploration Geophysicist Foundation also has many other scholarships available for undergraduate and graduate students studying geophysics and related geosciences.

**Eligibility Requirements**

These are merit-based scholarships; the general eligibility requirements are:

1. A student must meet one of the following requirements:
   a. Attending high school and planning to enter college next fall, or
   b. Enrolled as an undergraduate or graduate college student whose grades are above average.
2. A student must intend to pursue a college curriculum directed towards a career in applied geophysics or a closely related field, such as geosciences, physics, geology, or environmental sciences.

To apply for these scholarships or to get more information, go to:

www.seg.org/web/foundation/programs/scholarship

SEG scholarship applications are due by March 1, 2014.
