REQUEST FOR PROPOSAL NO. 11P0007CAW
Dated: November 23, 2010

ISSUED TO:
All Prospective Offerors

AMENDMENT NO. 2
Dated: December 15, 2010

ISSUED BY:
University of Alaska Fairbanks
Procurement and Contract Serv.
Administrative Services Center
Fairbanks, AK 99775-7940

This amendment is issued to answer questions provided by offerors.

2.1 QUESTION: Can SEL relay part numbers be provided?

ANSWER: All offers must provide relays and options to provide protection and functionality as specified in the solicitation. UAF does not have the part numbers and therefore asks that the following be added to the specifications:

Add Section 1.04.3.B : SEL relays: Provide part numbers of the SEL relays included in the proposal.

2.2 QUESTION: Do you need the breakers to be all tripped simultaneously at the end of 8 hrs. (this is the worst case scenario, maximum safety but much bigger capacity of battery) or should we go with breakers tripping consecutively?

ANSWER: Add Section 2.07.A.3 : Battery performance requirements: Either Station Service Battery 1 or station Service Battery 2 should be capable of simultaneously tripping all breakers on a single bus (either bus A or bus B) after sustaining station load for 8 hours.

2. 3 The submittal deadline is extended to December 21, 2010, 5:00 p.m. local time.

All other terms, conditions, and specifications, of the original Request for Proposals, remain unchanged.

University of Alaska Fairbanks,

Christopher Wainwright
Purchasing Agent
The Amendment becomes part of the Request for Proposal and modifies the original RFP document. This Amendment shall be acknowledged by signing below and returning it by mail prior to the submittal deadline, or by indicating acknowledgment on your proposal cover sheet.
