The following are UAF’s answers to questions received from potential offerors regarding the above referenced solicitation:

2.1  QUESTION: Can the OPIS price be changed from a weekly average rack price to the OPIS daily rack price on the date of delivery?

ANSWER: Yes. The IFB is hereby amended to incorporate this change.

2.2  QUESTION: Is low sulfur #2 diesel acceptable for delivery sites in the IFB?

ANSWER: Yes. The IFB is hereby amended so that low sulfur #2 marine diesel which meets or exceeds the specifications in Attachment No. 3 is acceptable for locations in the IFB? IF UAF requires #1 diesel then the same management and stand by fees will be assessed and the low sulfur #1 diesel rack price will be used.

2.3  QUESTION: Can the OPIS daily rack price for specific regions be used as a benchmark rather than the OPIS weekly average rack price for Seattle?

ANSWER: Yes. The IFB is amended so that the daily rack price on the date of delivery will be used as the benchmark. As stated on IFB page 16 of 23, the OPIS daily rack price for the following regions will be used:
