Jacob Metzger (current MS)
TBD

Ben Weitzman (current PhD)
TBD

Alyssa Lind (current MS)
The effects of rising sea surface temperature and salinity fluctuations on kelp forest ecosystems

Sarah Traiger (current PhD)
Effects of glacial discharge on recruitment, succession, and community recovery in benthic communities

Alexandra Ravelo (current PhD)
Epibenthic community variability in the Chukchi and central Beaufort Seas

Kimberly Powell (MS 2015)
Epibenthic Community Structure of Hanna Shoal in the Chukchi Sea

Jasmin Gross (MS 2015) University of Bremin
Variability in the size frequency distribution and growth of snow crab (*Chionoecetes opilio*) and lyre crab (*Hyas coarctatus*) in the Chukchi Sea

Terril Efird (MS 2014)
Variability of resident and transient fish communities in changing kelp forest habitats

Amy Tippery (MS 2013)
Biodiversity and food web structure of Izembeck Lagoon, Alaska

Martin Schuster (MS 2012)
Effects of habitat fragmentation on the holdfast fauna and phlorotannin concentrations of the kelp *Druehlia fistulosa*

Nathan Stewart (PhD 2011)
Relating habitat type and prey availability to patterns in sea otter resource selection in Kachemak Bay, Alaska

Brooke McFarland (MS 2010)
Physical and biological habitat preferences of black oystercatchers breeding territories in Prince William Sound, Alaska

Melissa Deiman (MS 2010)
Susceptibility of microscopic life stages to sedimentation and light attenuation in canopy-forming kelp species in Alaska
Tracie Merrill (MS 2008)
Evaluation of walrus foraging grounds in the Bering Sea

Joel Markis (MS 2007)
Essential larval and juvenile fish habitat in the nearshore waters of Kachemak Bay

Ben Daly (MS 2007)
Habitat use by larval, juvenile and adult crab populations in the nearshore communities

Casey Debenham (MS 2005)
Isotope analysis of a high arctic kelp community and its surrounding area

Heather Patterson (MS 2004)
The effects of freezing on the intertidal in Kachemak Bay, Alaska

Judy Hamilton (MS 2004)
Utilization of Alaska kelp beds by commercially important fishes

Cathy Hegwer (MS 2003)
Shallow water nearshore fish assemblages around Steller sea lion haulouts near Kodiak, Alaska

Heloise Chenelot (MS 2003)
Impacts of salinity and turbidity on the spatial distribution of kelp beds in Kachemak Bay, Alaska

Reid Brewer (MS 2003)
Chemosensory ability of seastars in the Pacific Northwest
