Bookmaking: Woven Spine Bindings (ART F040-F01)

Friday, January 12 (6:00 pm – 8:30 pm)
Saturday and Sunday, January 13 – 14 (10:00 am – 4:00 pm)
Margo Klass, Instructor

These small “chunky” books are more sculptural objects than functional books, although they can be both. The spotlight of this binding is on the spine where the texture of colored threads woven back and forth provides the background for further embellishment possibilities, including braids, beads, and knotting. The binding can accommodate any number of sections, each of which is sewn separately and then connected to each other at the spine. In this two-day workshop you will create two books, each with a distinct personality determined by your choices of papers, palette, and embellishments.
