Credits: 3.0
Day & Time: M-R 5:30-7:15 PM (7/6-8/6)
M-R Asynchronous Online (8/10-8/13)
Location: UPark 162
E-mail: pppatterson@alaska.edu
Prerequisites: Completion of a special education overview course (e.g., EDSE 482)
Telephone Conference Number: 800-893-8850
Telephone Conference PIN Number: 2552470
Instructor Cell Phone: (661) 478-4947

Required Readings

Texts:
Murdick, N. L., Gartin, B. C., & Crabtree, T. (2014). *Special education law* (3rd ed.). Upper Saddle River, NJ: Pearson Merrill/Prentice Hall. This textbook was selected because of its currency, efficient writing style, and focus towards the special educator.

Additional website, supplemental text/journal readings, videos, and documents will be assigned by the instructor. These will be posted to Blackboard and will include:

Course Materials: Aside from the course textbooks, students must have computer and Internet access. They must also possess basic computer skills in order to access research articles and to complete online tutorials. Finally, a UAF email address and access to Blackboard are required. When assigned, students are strongly encouraged to send projects and reports electronically to the instructor as Word documents.

LiveText Requirement: The School of Education has adopted LiveText, an online database and assessment system, starting in the spring of 2015. LiveText will be used to post, grade, and maintain key assignments from courses taken at UAF. Some graduate programs will additionally use LiveText for the development of candidate portfolios. Many colleges and universities throughout the nation use LiveText or a similar online management system. LiveText will cost candidates $95.00. This is a one-time fee that makes the LiveText system available to candidates for five (5) years. A nominal fee is charged by LiveText should candidates wish to access their materials beyond the five-year timeline. All graduate candidates admitted to the School of Education, who plan on continuing their course of study beyond the spring semester, will need to have access to LiveText. Directions on procuring LiveText will be available from the instructor the first day of class.

I. COURSE DESCRIPTION
This course examines litigation and legislation related to three federal laws that form the foundation for disability law: the Individuals with Disabilities Education Act (IDEA) 2004; Section 504 of the Rehabilitation Act of 1973; and the Americans with Disabilities Act. The course will also focus on substantive principles that underlie procedural requirements including due process issues, case law analysis, policy changes, and the creation of a legally defensible Individual Educational Program (IEP).
Alignment With School of Education Mission

The School of Education prepares educators to work in urban and rural Alaska and to work with K-12 students from many backgrounds, with a particular focus on Alaska Native languages and cultures. We are particularly committed to enhancing the educational opportunities for Alaska’s rural and Native populations. Through the UAF rural campuses, we are responsive to local and regional needs within the state.

Through our programs and professional development courses, we promote the following goals:

• Increase the number of qualified educators for Alaska’s schools
• Enhance the professional skills of Alaska’s K-12 educators
• Develop and support ongoing systemic educational collaborations with Alaska schools and communities
• Conduct collaborative research on cross-cultural and multicultural education

This course supports the UAF School of Education’s mission by providing students with the understandings and skills necessary to successfully address the diverse individual and cultural needs of Alaska’s students, schools, and communities. Emphasis is placed upon understanding students with exceptional needs.

Council for Exceptional Children (CEC) Standards

This course is also aligned with the CEC Special Education standards for general curriculum. It should be understood that the students taking this course are not exclusively training to be special educators, but may be training to become general education teachers in inclusive settings. The CEC Standards address the following broad topics:

• Standard 1 Learner Development and Individual Learning Differences
• Standard 2 Learning Environments
• Standard 3 Curricular Content Knowledge
• Standard 4 Assessment
• Standard 5 Instructional Planning and Strategies
• Standard 6 Professional Learning and Practice
• Standard 7 Collaboration

Many of these topics will be addressed throughout the course. Note that for the key assignment (research paper), curricular content knowledge as well as professional learning and practice standards will be emphasized.

Note: The final week of this summer course is asynchronous, meaning there are no live classes. In lieu of live classes there are a variety of online modules and tasks to complete.

II. COURSE GOALS & STUDENT LEARNING OUTCOMES

During this course, candidates will demonstrate mastery of the following:

1. Review of Laws
   Goal: Review the laws that form the foundation of disability law.
   Outcomes:
   1.1 Identify significant litigation that has led to legislation pertinent to those with disabilities.
   1.2 Identify components of Section 504 of the Rehabilitation Act of 1973 that impact educational practices.
   1.3 Identify components of the Americans with Disabilities Act that impact educational practices.
   1.4 Identify components of the IDEA that impact educational practices.
   1.5 Consider disability laws in the context of social justice.

2. Principles of IDEA
   Goal: Discuss core principles of the IDEA.
Outcomes:
Identify and describe the following:
2.1 Zero reject
2.2 Non-discriminatory evaluation
2.3 Free Appropriate Public Education
2.4 Least Restrictive Environment
2.5 Procedural due process
2.6 Family and student participation

3. IEP Process
Goal: Describe the IEP process as it is related to Part B of the IDEA.
Outcomes:
3.1 Write components of a legally defensible IEP.
3.2 Identify and describe strategies for effective IEP meetings.

4. Special Issues
Goal: Discuss special issues that relate to IDEA requirements.
Outcomes:
1.1 Identify and discuss appropriate practices for addressing disciplinary issues with IEPs.
1.2 Identify and discuss issues and procedures for serving students in private (NPS) settings
1.3 Identify and develop communication practices to parents including describing the independent evaluation process.

5. Due Process
Goal: Provide information about due process.
Outcomes:
 a. Identify exemplary educational practices that decrease the odds of due process involvement.
 b. Develop effective communication with parents using role-play scenarios.
 c. Identify and discuss strategies to address procedures inherent in the due process hearing.

6. Review Litigation and Case Law
Goal: Review significant special education legal cases.
Outcomes:
 a. Analyze case law summaries from multiple perspectives.
 b. Analyze the impact of major court cases on special education service provision.
 c. Reflect on personal educational practices in consideration of litigation and case law discussions.

Technology Focus
This course will help you understand local, state, and national resources for regulations pertinent to the Individuals with Disabilities Education Act, the Americans with Disabilities Act as Amended, and the Rehabilitation Act of 1973. Many documents related to these laws are accessible online. Using technology will also act as a means of accessing resources to collaborate and support parents and colleagues. Finally, technology and Internet access will serve as research tools for developing individual university class presentations.

III. INSTRUCTIONAL METHODS
This course will be taught using a variety of teaching methods including audio conferences, interactive lectures, small group collaborative projects, guest speakers, internet research, reading assignments, case studies, and student presentations, along with active student participation. Additionally, during the final week of the course there are a variety of asynchronous online modules and tasks to complete in lieu of live classes.

Distance learners can access and participate in the course via telephone conference and Blackboard Collaborate. Since Blackboard Collaborate allows for PowerPoint projection and small video representations, it is the
preferred platform. Below are some considerations when using Blackboard Collaborate:

**General Blackboard Collaborate Protocols:**

Blackboard Collaborate sessions will be available for distance learners and encouraged of warm-body students. Please follow these Blackboard Collaborate directions to be ready

- Please login (on Blackboard) 5-10 minutes early so we can start on time
- Please arrive with working speakers and microphone (headset preferred)
- Before class begins, please check your audio and microphone settings by going through Blackboard Collaborate’s audio setup wizard (I will show you how to do this in class)
- If possible, please avoid joining class via a wireless connection
- During class, the chat is to be used for class-related conversation only. Before and after class, you may use it for informal conversation with your classmates
- Please use the “raise hand” tool to let me know if you have something to contribute to the class discussion
- If the audio quality of a particular student is poor (too loud, too soft, too much background noise, etc.), please type that feedback into the direct messaging field so that we can correct the problem
- If you get bumped out of e-Live, try immediately to log back on; if the Blackboard Collaborate system goes down as a whole, please check your email and the announcements page in our Blackboard course for updates and instructions
- Courtesy, respect, and common sense are the underlying principles when encountering technical difficulty.

**Problems**

If you have problems during a Collaborative session, you can always call the UAF Help Desk at 907-450-8300. Please note – If Blackboard Collaborate is not up or goes down during a class session a phone-in alternative is available. This will be a conference call. You call **800-893-8850** and type in your participant PIN, which is 2552470.

**IV. COURSE POLICIES**

**Attendance and Class Participation**

Students are expected to: participate on time via audio conferences, online, or in-person for classes offered 7/6-8/6, participate in discussions, complete readings, and finish reflections as requested. Students are also expected to participate in the asynchronous portion of the class during the period of 8/10-8/13. In instances of absences or tardiness, the student is responsible for getting the information missed. Regular timely attendance and classroom participation will be considered in determination of the final grade. Late assignments will only be accepted with Prior Written Notice for a legitimate and excused absence, however: only partial credit will be earned (minus two points each day late). Responding to instructor communications in Blackboard and via email is mandatory. Students enrolled in the class as warm-body students may, on occasion, participate as distance learners (e.g. away from the campus) with prior instructor approval. No more than four absences over the 20 day live-class session will be allowed. Students who exceed this will be asked to drop the course or the instructor will initiate a drop.

**Readings**

Assigned readings for each class are listed in the class outline. Some readings will be posted to Blackboard on a weekly basis. It is expected the material has been read prior to the start of class.

**Assignments** Due the day indicated on the syllabus (tentative course calendar). Late assignments, which will be docked points, will only be accepted with prior instructor approval.

**Adaptations and Accommodations**

If you need adaptations or accommodations, if you have emergency medical information to share, or if you need special arrangements, please notify the course instructor as soon as possible. Note the information below on Disability Services.

**Plagiarism**

Academic integrity is a basic principle that requires all students to take credit only for the ideas and efforts that
are their own. Plagiarism is defined as appropriating passages or ideas from another person’s work and using them as one’s own. Lifting passages of text from the Web is also plagiarism. Plagiarism is taken very seriously and may result in a student’s dismissal from the teacher education program. Assignments need to be typed and submitted in standard written English, observing rules of grammar, spelling, punctuation and syntax. Research citations need to be written APA style in all work, as this is the designated style and format for the field of educational research. Internet citations must include the title of the website, universal resource locator, date of posting, date of access and other information included on APA format. Note: Safe Assign, an online plagiarism-check system will be used to validate candidate assignments.

Emotional Intelligence
Particularly at the graduate-level (i.e., 600 level courses), it is anticipated that candidates will initiate seeking clarification if information or assignments are unclear. Candidates can contact the instructor during or after class, via email, by office telephone, through appointments, or by the instructor’s cell phone.

Professional and Ethical Behavior
UAF School of Education students are expected to adhere to the Alaska Code of Ethics for the Education Profession. The standards, adopted by the Professional Teaching Practices Commission, govern all members of the teaching profession. A violation of the code of ethics and professional teaching standards are grounds for revocation or suspension of one’s teaching license. They could also negatively impact a candidate’s ability to earn such a license. During class discussions and on written assignments, it is expected that candidates will maintain confidentiality regarding specific schools, school districts, and students, which they may reflect upon.

Student Code of Conduct and Expect Classroom Etiquette
All guidelines and provisions of the UAF Student’s Rights and Responsibilities will apply; see the 2014-2015 UAF catalog or go to http://www.uaf.edu/catalog/current/academics/regs3.html#Student_Conduct for further details.

In-Class Conduct
It is unfortunate that this must be mentioned, but past experience makes it necessary. Chit-chatting in class will not be tolerated. If you feel you must carry on a conversation in class at inappropriate times (e.g., during lectures, cooperative activities, presentations, etc.), please leave class to do so. Students who continue with such behavior (more than 2 warnings) risk receiving sub-standards grades (e.g., “F”) for the course.

Cell Phones and In-Class Computer Use
Please place your cell phones on vibrate. If you need to respond to a telephone call, please do so out of earshot of the class. Students are encouraged to bring their laptop computers to class to use for class research, taking notes and for interacting with distance learners. Please be sure that all classroom computer use is restricted to classroom assignments only. Do not text, play computer games or web browse during class time.

Respect
Group discussions and electronic communication are an integral part of this course. Often, discussions can be contentious, or serious, or entertaining, or boisterous. In the fever of the moment, it's possible to get carried away and forget each other's feelings. Electronic communications can also be problematic. Some communications can appear blunt if not downright rude. An underlying respect for one another helps make classroom and web experiences good ones. Remember to give the person who is speaking your undivided attention and don't over-talk or interrupt to make your points. In other words, please don't talk when a fellow student "has the floor," or for that matter, when the instructor has the floor. This is especially important for those participating in the class via telephone or via Blackboard Collaborate. It's not only common courtesy, but also talking and whispering can distract, annoy, and even intimidate students around you.

Another in-class annoyance can be when students veer off topic or “bird-walk” when communicating with the group. It is extremely difficult for distance learners to follow conversations especially when speakers attempt to address multiple topics or switch topics. Please keep your conversations focused or minimally provide transition statements between topics. Along those same lines, consider your fellow students when
asking the instructor questions. You may have questions that are of a personal nature or that pertain to a personal interest. If your colleagues can’t benefit from such questions, the questions might be better presented to the instructor after class.

Essentially, in this class you should treat fellow students as you would like, and expect, to be treated yourself. For live and electronic communications, remember to use social pleasantries (e.g., Greetings, This is…. Dear…. Sincerely, please, etc.). Review your written communications before sending them.

**Academic Support Services**

Writing support services are available on the UAF Campus in the Writing Center, located in 801 Gruening, (907) 474-5314. For students using distance delivery you can send your papers to the Writing Center using their Toll Free FAX 1-800-478-5246. They will FAX information back, and also email you regarding any questions. Note, however, that they will not write your papers for students or act as detailed editors. Academic Support Services including library hours, computer lab hours/services, and writing center hours/services can be located at the following web site: [http://www.uaf.edu/sssp/](http://www.uaf.edu/sssp/)

**Instructor’s Assumptions**

1. Candidates know how to use Blackboard and connect to Blackboard Collaborate.
2. Candidates know to ask questions in class, via email, via telephone or via office appointments for information and clarification.
3. Candidates are capable of learning from models (e.g., demonstrations, written products, etc.).
4. Candidates know that PowerPoint presentations do not represent the complete content of classes nor are they intended to be comprehensive notes.
5. Candidates know the importance of note taking and are capable of taking accurate notes.
6. Candidates possess innate curiosity about educational processes and want to learn about a variety of policies, procedures, and practices related to special education.
7. Candidates know that it is their responsibility to access content and retrieve assignments particularly if absent. Additionally, it is assumed that candidates know how to monitor their assignment grades on Blackboard.
8. Candidates know how to track important due dates for assignments and quizzes.

**Disabilities Services**

The Office of Disability Services (ODS) implements the Americans with Disabilities Act (ADA), and insures that UAF students have equal access to the campus and course materials. Disability Services, a part of UAF’s Center for Health and Counseling provides academic accommodations to enrolled students who are identified as being eligible for services. The UAF faculty makes every effort to work in conjunction with ODS to provide the necessary accommodations for all identified students enrolled in our courses. To access services, the student must provide current disability documentation that supports the requested services. If you believe you are eligible, please contact Disability Services on the UAF campus at 474-5655, fydso@uaf.edu, or visit [http://www.uaf.edu/chc/disability/index.html](http://www.uaf.edu/chc/disability/index.html) on the web or contact a student and enrollment services staff person at your nearest local campus. Section 504 of the Rehabilitation Act of 1973 and the American with Disabilities Act As Amended mandates disability support services.

**V. COURSE ASSIGNMENTS:**

1. **Online Transition Tutorial (25 points).** Go to: [http://transitioncoalition.org/transition/](http://transitioncoalition.org/transition/) and do the tutorial entitled *Best Practices in Planning Transition*. You will need to sign into this web site. After completing the tutorial, go to the Certificate tab and save the summary sheet, which contains your pre- and post-test scores as well as your portfolio responses. Send the summary sheet to the instructor as an email attachment. **You need to receive at least 80% on the post-test and have acceptable responses in your portfolio to receive credit.** This is not an easy module: it requires multiple hours to complete. Note the due date on the tentative schedule.

2. **Online Behavior Tutorial (15 points).** Go to: [http://www.calstat.org/classroom/index.html](http://www.calstat.org/classroom/index.html) and complete the tutorial entitled *Classroom Management*. Follow the directions. There are 4 sections to this tutorial. You
will need to send the results of the post-tests to the instructor to receive credit. You will need to either take a screen shot or attempt to copy the tests. You must get at least 80% on each of the post-tests to receive credit. Note the due date on the tentative schedule.

3. **Topic Research (100 points)**

Students will be assigned a major IDEA compliance topic for research. Topics may include: Nondiscriminatory evaluations, program development, due process, and parental participation, among others. Students are required to conduct independent research regarding their assigned topic. Students will write a minimum 12-pages (including a cover page, abstract, and collected references) double-spaced synopsis of their topic. Graduate level writing is expected, which complies with APA standards. The synopsis will address the following major points: 1) Provide a brief summary/definition of the topic; 2) Identify and summarize litigation/case law history/milestones related to the issue; 3) Identify and discuss ethical issues and issues related to diversity concerning violations of the compliance issue; 4) Identify and discuss IDEA and other legal requirements pertinent to the issue; 5) Identify populations for whom the issue is pertinent; 6) Compose a school-based example (i.e. case study) illustrating how the topic applies at the school level; this can be a fictitious scenario. The case study should identify pertinent curriculum areas, needed instructional/educational practices, needed modifications and/or accommodations; 7) Write a brief summary and conclusion; and 8) Provide a minimum of 8 quality references using the current APA citation style. As part of this paper: clearly identify desirable practices teachers should adhere to, which are related to the compliance issue; identify local, national, and state resources that educators and family members access for assistance with the compliance issue; and describe how you plan on remaining current on special education, law once you become a special educator. Finally, students will be required to make a 10-15 minute oral presentation of their research findings during one of the class meetings. A brief PowerPoint presentation (minimum of 7 slides) is required to accompany the oral presentation. The rubric for this key assignment will be posted in Blackboard Collaborate. This is the key assignment for the course. Candidates must minimally be rated *meets* in all characteristics of the rubric in order to receive credit for this assignment. If candidates fail to meet this requirement, they will have one opportunity to rectify assignment content.

4. **IEP Development (80 points)**

   A. **Case Study I:** Students will develop parts of an IEP draft based on an instructor provided case study (elementary age student). Students will use an IEP template that is based on the IEP form used by the Fairbanks Northstar Borough School District (instructor will provide). Students will develop well-stated present levels of functioning as well as measurable goals (minimally 2) and short-term objectives (minimally 6) that contain the following variables: condition, behavior, criterion, and mastery.

   B. **Case Study II:** Students will develop parts of an IEP draft based on an instructor provided case study (secondary age student). Students will use an IEP template that is based on the IEP form used by the Fairbanks Northstar Borough School District (instructor will provide). Students will develop well-stated present levels of functioning as well as a transition plan for the case study student. Additionally students will identify measurable goals (minimally 2) and short-term objectives (minimally 6) that contain the following variables: condition, behavior, criterion, and mastery. Note the attached rubric.

5. **Attendance and class participation:** 20 x 2 points = 40 points. Candidates are not only expected to be present (in-person or electronically) but must participate (e.g., ask questions, answer questions, make insightful comments) to earn full credit. Due to the time condensed nature of this summer school course, students will be asked to drop the course (or the instructor will drop them) if they have more than four (4) absences.

6. **Tests:** 2 x 50 = 100 There will be two tests: a midterm and a final test. The tests will be comprised of objective and short answer items based on course readings and lecture content.

7. **Special Education Philosophy of Education Statement:** 20 points. Candidates will construct a minimum 450-word personal philosophy of special education statement, which reflects on the following: conceptualization of learning and teaching; goals for students; implementation of philosophy; evaluation and assessment of goals; and inclusive learning. Note attached rating scale.
8. **Linear Resume: 20 points.** Candidates will develop a linear resume, which may be requested of them in the event of litigation or fair hearing. The resume will follow a template provided by the instructor. Note attached rating scale.

9. **Listserve membership: 5 points.** Candidates will ask (via email) to become a member of attorney Kathleen Muhfoud’s listserve by sending a request from their personal or work email addresses to: KMehfoud@reedsmith.com Candidates will send a blind copy (bc) of the request to the course instructor (PPatterson@alaska.edu). After being added to the listserve, candidates will receive weekly email reminders concerning special education laws, policies, and procedures from Attorney Muhfoud.

**Note:** There are no fieldwork or discussion board components to this course.

**Evaluation is based on a percentage of the total class points listed using the following grading system.**
