**SUSTAINABILITY AREA**  
Energy, Education and Curriculum  

**PROPOSAL SUMMARY**  
This Spring UAF will be competing in a national competition to reduce electric consumption. In addition to competing with other universities, UAF will be competing among dorms. The money requested will help raise awareness of the competition, raise the visibility of ongoing sustainability efforts on campus as well as fund a prize for the dorm that can conserve the most electricity. The competition is possible because of Lucid Dashboard that was funded recently by the RISE Board. Our goal is that this competition can be an annual event and make conservation a part of campus life.

$100 = $3,950

BUDGET JUSTIFICATION

The t-shirts, fliers, posters and banner will be purchased in order to raise the awareness of the electrical reduction competition. The prize given to the dorm which reduces, in percentage terms, electrical consumption the most. We will restrict the money to be spent on non-electric technology such as a pool table or allow for the replacement of energy efficient appliances.

PROJECT VALUE

Our primary goal with the supplies that this proposal will fund is to conduct a successful energy competition. We believe that this competition will have large educational effect and has the potential to change students attitude towards resource consumption. Additionally, this competition gives us the chance to showcase ongoing sustainability efforts on campus. The funding of this proposal will help us conduct a competition that will impact the maximum amount of people possible.

IMPLEMENTATION PLAN

Upon the funding of this proposal we are ready to order all of the supplies that have been listed. We have logos prepared and quotes from local vendors.

Competition date-April 2-23

QUALIFICATIONS AND EXPERIENCE

If funded this will be the third proposal I have authored. I have overseen the purchase of the Glass Pulverisor and the installation of the Lucid Dashboard monitors. I have worked closely with the Office of Sustainability for the last two years and am aware of the RISE process.
