TRIAL COURSE OR NEW COURSE PROPOSAL

SUBMITTED BY:
Department: Forest Sciences
Prepared by: J. Yarie
Email Contact: jayarie@alaska.edu

College/School: SNRAS
Phone: 5650
Faculty Contact:

See http://www.uaf.edu/uafgov/faculty/cd/cdman.html for a complete description of the rules governing curriculum & course changes.

1. ACTION DESIRED (check one):
   Trial Course XX New Course

2. COURSE IDENTIFICATION:
   Dept: NRM Course # 470 No. of Credits 3
   Justify upper/lower division status & number of credits: This course will require a background knowledge in Forest Ecology or Ecosystem Ecology and natural resource economics, policy, and geography.

3. PROPOSED COURSE TITLE:
   Terrestrial Carbon Management

4. CROSS LISTED?
   YES/NO
   (Requires approval of both departments and deans involved. Add lines at end of form for such signatures.)
   If yes, Dept.
   Course #

5. STACKED?
   YES/NO
   If yes, Dept.
   Course #

6. FREQUENCY OF OFFERING:
   Yearly
   (Every or Alternate) Fall, Spring, Summer — or As Demand Warrants

7. SEMESTER & YEAR OF FIRST OFFERING (if approved)
   Spring 2012

8. COURSE FORMAT:
   NOTE: Course hours may not be compressed into fewer than three days per credit. Any course compressed into fewer than six weeks must be approved by the college or school’s curriculum council. Furthermore, any core course compressed to less than six weeks must be approved by the core review committee.
   COURSE FORMAT:
   (check one)
   OTHER FORMAT (specify)
   Mode of delivery (specify lecture, field trips, labs, etc.) lecture

9. CONTACT HOURS PER WEEK:
   3 LECTURE hours/week
   LAB hours/week
   PRACTICUM hours/week
   OTHER HOURS (specify type)
Climate change and its relation to carbon dynamics have become an element of potential natural resource management options of landowners within the state and across the country and the globe. The course will present a broad scale description of the direction for forest carbon management and proposed methods for inventorying and documenting carbon dynamics attached to industry and down to the landowner.

11. COURSE CLASSIFICATIONS: (undergraduate courses only. Use approved criteria found on Page 10 & 17 of the manual. If justification is needed, attach on separate sheet.)

   H = Humanities
   N = Natural Science
   X = X
   S = Social Sciences

   Will this course be used to fulfill a requirement for the baccalaureate core? YES NO

   IF YES, check which core requirements it could be used to fulfill:

   O = Oral Intensive, Format 6
   W = Writing Intensive, Format 7
   Natural Science, Format 8

12. COURSE REPEATABILITY:

   Is this course repeatable for credit? YES NO

   Justification: Indicate why the course can be repeated (for example, the course follows a different theme each time).

   How many times may the course be repeated for credit?

   If the course can be repeated with variable credit, what is the maximum number of credit hours that may be earned for this course?

13. GRADING SYSTEM:

   LETTER X
   PASS/FAIL:

14. PREREQUISITES

   BIOL 271 or permission of instructor

   These will be required before the student is allowed to enroll in the course.

15. SPECIAL RESTRICTIONS, CONDITIONS

16. PROPOSED COURSE FEES

   Has a memo been submitted through your dean to the Provost & VCAS for fee approval? YES/NO

17. PREVIOUS HISTORY

   Has the course been offered as special topics or trial course previously? YES/NO

   If yes, give semester, year, course #, etc.
18. ESTIMATED IMPACT

WHAT IMPACT, IF ANY, WILL THIS HAVE ON BUDGET, FACILITIES/SPACE, FACULTY, ETC.

No impact on budget, it will require the time of three faculty; one is the primary instructor and the other two will help with the presentation of course material.

19. LIBRARY COLLECTIONS

Have you contacted the library collection development officer (ffkij@uaf.edu, 474-6695) with regard to the adequacy of library/media collections, equipment, and services available for the proposed course? If so, give date of contact and resolution. If not, explain why not.

<table>

20. IMPACTS ON PROGRAMS/DEPTS

What programs/departments will be affected by this proposed action?

Include information on the Programs/Departments contacted (e.g., email, memo)

School of Natural Resources and Agricultural Sciences, Dept of Biology,

21. POSITIVE AND NEGATIVE IMPACTS

Please specify positive and negative impacts on other courses, programs and departments resulting from the proposed action.

This course will present in a comprehensive framework all the necessary material for understanding the potential for the social implications of carbon management in the Alaskan environment.

JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus-wide curriculum committees is to scrutinize course change and new course applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. Use as much space as needed to fully justify the proposed course.

This course will be presenting up to date information on the developing scenarios and mandates that will be occurring in the next several years as the US starts to actually develop sound policies related to carbon sequestration and carbon trading dynamics. The potential place in the market for Alaska is currently unknown but we can not wait for the outside world to try and understand our environment and then develop policies that were totally tied to the lower 48. It is imperative that we start to develop knowledgeable resource managers that understand the environmental, social and political dynamics of the carbon sequestration playground.
**APPROVALS:**

NRM 470 – Terrestrial Carbon Management

Instructor - John Yarie
Lectures - MWF 9:15-10:15 (305 O’Neill Bldg)
Office Hrs - 337 O’Neill, 8A – 11A MTWT.
Telephone No. - 474-5650
Email - jayarie@alaska.edu

Textbook and additional reading material:

Course Description

Climate change and its relation to carbon dynamics have become an element of potential natural resource management options of land owners within the state and across the country and the globe. The course will present a broad scale description of the direction for forest carbon management and proposed methods for inventorying and documenting carbon dynamics attached to industry and down to the landowner.

Course Goals

This course focuses on environmental factors and ecological processes that drive forest carbon dynamics. Lectures will cover the basic concepts of forest carbon cycling and affects of silvicultural practices. Major areas of emphasis will be on: (a) establishment of a forest carbon site, (b) measurement of above- and below-ground pools, (c) measurement of above- and below-ground carbon fluxes, and (d) potential use of remote sensing and modeling techniques. Each lecture will have corresponding reading assignments that should be completed prior to the lecture. Class discussions on selected reading assignments will occur periodically. Students are responsible for all information covered in lectures, reading assignments, and discussions.
A planning exercise will be assigned as part of the course work and will be focused on development of a carbon monitoring system tied to a selected silvicultural prescription within the University Forest. Data analysis will be performed during the semester, concluding with the submission of a report by each student describing the proposed silvicultural practices for the University Forest and their potential affect on landscape carbon dynamics.

**Student Learning Outcomes**

Upon completion of this course students should be able to:

1) Develop an understanding of forest stand dynamics
2) Use the stand dynamics knowledge to devise carbon management objectives and activities to obtain a desired outcome
3) Understand natural and human caused abrupt and gradual changes that can occur in forest ecosystem carbon dynamics
4) Discuss the application of ecological knowledge to carbon management objectives of forest ecosystems

**Instructional Methods**

Presentation of material for this course will include lectures, instructor led discussions, student led discussions, and assignments. Students are expected to complete reading assignments prior to each lecture. Assigned homework is expected as scheduled on the course outline.

**Course Policies**

1. **Attendance**: As part of the “Learning Community” all students are expected to attend and participate in class.

2. **Absences and Make-ups**: If necessary, excused absences must be arranged ahead of time with the Instructor.

3. **Tardiness**: Students are expected to arrive in class prior to the start of each class. If a student does arrive late, they are expected to do so quietly.

4. **Participation and Preparation**: Students are expected to come to class with assigned reading and other assignments completed as noted in the Syllabus.

5. **Assignments**: All assignments must be received by the Instructor no later than 12 p.m. on the due date as noted in the Schedule unless otherwise prior-arranged. Each assignment must have the following: Your Name; Date; Assignment Title.

6. **Graded Assignments**: It is the instructor’s intention to grade and respond to student assignments within seven days of their receipt. At any time you may call and ask what you received on a specific assignment if you haven’t yet received it back.

7. **Reporting Grades**: All student grades, transcripts and tuition information are available online at [http://www.uaonline.alaska.edu](http://www.uaonline.alaska.edu) and in the blackboard grades section. If you have difficulty accessing this website, contact the registrar at your local campus.

8. **Written paper assignments**: All papers are expected to be typed and double spaced, with no misspelled words. Sentences should be grammatical and the paper easy to read. The burden is always on the writer to communicate with the reader. UAF has a writing lab and other tutoring services available to students (474-5314). It is also recommended that you have another person review your draft before final submission for a grade. Written assignments may be emailed or turned in during class to the instructor.

9. **Plagiarism**: Plagiarism is using what another person has written, and using it as your own words and thoughts. Plagiarism is never acceptable. According to the University, plagiarism is preventable by students “not representing the work of others as their own. A student will attribute the source of information not original with himself or herself (direct quotes or paraphrases) in compositions, theses and other reports.” The UAF Honor Code (Student Code of Conduct) defines the academic standards expected at UAF and is adhered to in this class as well.
10. All UA student academics and regulations are adhered to in this course. You may find these in UAF/UAS Catalogs.

11. **Confidentiality:** An important part of this course is the sharing of insights and experiences with other students. To benefit from this discussion, it is essential that we all maintain the confidentiality of children, families, programs and staff. We do not use names. We talk and write about children, families and staff in respectful ways.

12. **Incomplete, Withdrawal and No Basis Grading:** A student may request an Incomplete grade if there are factors beyond his/her control that effect the completion of the course AND the student has a C grade or higher at the end of the semester/course. A Faculty-Initiated Withdrawal is done by the instructor when the student has not met the criteria for passing the class, and is within the University-allowed drop period. A No Basis (NB) grade is provided if the student has not met attendance/assignment criteria, in lieu of a failing grade, provided it is after the University-allowed drop period. All are at the discretion of the Instructor.
**Attendance**

The student is responsible for all material distributed and presented in lectures and laboratory. Lecture attendance is important. Depending on the number of students, you will be part of a carbon dynamics working group and your lack of participation not only reflects upon you, but your entire group.

The student code of conduct can be found in the current UAF catalog and at the following website: http://www.uaf.edu/catalog/current/academics/regs3.html.

**Grading**

Your course grade consists of the following:

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>3 Exams (2 midterms and final)</strong></td>
<td>65%</td>
</tr>
<tr>
<td><strong>Class presentation of carbon project</strong></td>
<td>15%</td>
</tr>
<tr>
<td><strong>Term Paper on carbon project</strong></td>
<td>20%</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td>100%</td>
</tr>
</tbody>
</table>

Letter grades for the course will be determined as follows and will reflect the Grading System and Grade Point Average Computation policy stated in the current UAF Catalog

- A+ ..................100–97%
- A .....................96–93%
- A- ................... 92–90%
- B+ .................. 90–87%
- B .....................86–83%
- B- ................... 82–80%
- C+ .................. 80–77%
- C .....................76–73%
- C- ................... 72–70%
- D+ .................. 70–67%
- D .....................66–63%
- D- ................... 62–60%
- F ....................less than 60%

**Student Support Services**

The University has many student support programs. If you need assistance please contact any of the following service programs or departments. The instructor is available during posted office hours and upon appointment for additional assistance outside session hours.
Disabilities Services

The Forest Sciences Department will work with the Office of Disability Services to provide reasonable accommodation to students with disabilities. Disability Services provide a variety of services to assure equal access for all students. Interpreting services, educational assistants, note taking, and exam accommodations for students are the most frequently provided accommodations. Disability services also provides assistance to the university's rural campuses; Tanana Valley Campus, Bristol Bay, Chukchi, Interior-Aleutians, Kuskokwim, and Northwest.

The staff of Disability Services works with faculty in arranging appropriate services in the classroom. Questions should be directed to the Director of Disability Services at (907)-474-5655.

http://www.uaf.edu/disability/
UAF Office of Disability Services
612 N. Chandalar, PO Box 755590
University of Alaska Fairbanks
Fairbanks, Alaska 99775-5590

Phone: (907) 474-5655 | TTY: (907) 474-1827 | Fax: (907) 474-5688
ATTACH COMPLETE SYLLABUS (as part of this application).
Note: syllabus must follow the guidelines discussed in the Faculty Senate Guide
http://www.uaf.edu/uafgov/faculty/cd/syllabus.html.
The department and campus wide curriculum committees will review the syllabus to ensure that each of the items listed below are included. If items are missing or unclear, the proposed course change will be denied.

SYLLABUS CHECKLIST FOR ALL UAF COURSES
During the first week of class, instructors will distribute a course syllabus. Although modifications may be made throughout the semester, this document will contain the following information (as applicable to the discipline):

1. Course information:
   - Title, number, credits, prerequisites, location, meeting time
   (make sure that contact hours are in line with credits).

2. Instructor (and if applicable, Teaching Assistant) information:
   - Name, office location, office hours, telephone, email address.

3. Course readings/materials:
   - Course textbook title, author, edition/publisher.
   - Supplementary readings (indicate whether required or recommended) and any supplies required.

4. Course description:
   - Content of the course and how it fits into the broader curriculum;
   - Expected proficiencies required to undertake the course, if applicable.
   - Inclusion of catalog description is strongly recommended, and
   - Description in syllabus must be consistent with catalog course description.

5. Course Goals (general) and Student Learning Outcomes (more specific)

6. Instructional methods:
   - Describe the teaching techniques (e.g. lecture, case study, small group discussion, private instruction, studio instruction, values clarification, games, journal writing, use of Blackboard, audio/video conferencing, etc.).

7. Course calendar:
   - A schedule of class topics and assignments must be included.
   - Be specific so that it is clear that the instructor has thought this through and will not be making it up on the fly (e.g. it is not adequate to say "lab". Instead, give each lab a title that describes its content). You may call the outline Tentative or Work in Progress to allow for modifications during the semester.

8. Course policies:
   - Specify course rules, including your policies on attendance, tardiness, class participation, make-up exams, and plagiarism/academic integrity.

9. Evaluation:
   - Specify how students will be evaluated, what factors will be included, their relative value, and
   - how they will be tabulated into grades (on a curve, absolute scores, etc.)

10. Support Services:
    - Describe the student support services such as tutoring (local and/or regional) appropriate for the course.

11. Disabilities Services:
    The Office of Disability Services implements the Americans with Disabilities Act (ADA), and insures that UAF students have equal access to the campus and course materials.
    - State that you will work with the Office of Disabilities Services (203 WHIT, 474-7043) to provide reasonable accommodation to students with disabilities.
