   Justify upper/lower division status & number of credits:
   
   This is an upper division / graduate level course aimed at students with a substantial background in biology and marine science, beyond the level of most lower division students. The course is comprised of 3 hours of lecture per week.

3. **PROPOSED COURSE TITLE**
   
   Early life histories of marine invertebrates

4. **CROSS LISTED?**
   
   YES/NO
   
   (Requires approval of both departments and deans involved. Add lines at end of form for such signatures.)

   ![no]("")

5. **STACKED?**
   
   YES/NO
   
   (Requires approval of both departments and deans involved. Add lines at end of form for such signatures.)

   ![no]("")

6. **FREQUENCY OF OFFERING**
   
   (Every or Alternate) Fall, Spring, Summer — or As Demand Warrants
   
   Alternate fall

7. **SEMESTER & YEAR OF FIRST OFFERING (if approved)**
   
   Fall 2011

8. **COURSE FORMAT**
   
   NOTE: Course hours may not be compressed into fewer than three days per credit. Any course compressed into fewer than six weeks must be approved by the college or school's curriculum council. Furthermore, any core course compressed to less than six weeks must be approved by the core review committee.

   **COURSE FORMAT**
   
   (check one)
   
   ![1]("") 2  3  4  5  ![X]("")  6 weeks to full semester

   **OTHER FORMAT**
   
   (specify)

   Mode of delivery (specify lecture, field trips, labs, etc)
   
   Lecture

9. **CONTACT HOURS PER WEEK**
   
   ![3](" LECTURE hours/weeks")  ![LAB hours /week]  ![PRACTICUM hours /week] 

   Note: # of credits are based on contact hours. 800 minutes of lecture=1 credit. 2400 minutes of lab in a science course=1 credit. 1600 minutes in non-science lab=1 credit. 2400-4800 minutes of practicum=1 credit. 2400-8000 minutes of internship=1 credit. This must match with the syllabus. See http://www.uaf.edu/uafgov/faculty/cd/credits.html for more information on number of credits.

   **OTHER HOURS (specify type)**
10. COMPLETE CATALOG DESCRIPTION including dept., number, title and credits (50 words or less, if possible):

MSL 612F Early life-histories of marine invertebrates
3 credits     Offered Fall
This course will explore the diversity of reproductive strategies and larval forms in marine invertebrates, and consider selective pressures governing the evolution of these forms. Topics include: larval ecology and evolution, environmental constraints on early life-histories, reproductive biology, population dynamics, sources of larval mortality, dispersal and recruitment.

11. COURSE CLASSIFICATIONS: (undergraduate courses only. Use approved criteria found on Page 10 & 17 of the manual. If justification is needed, attach on separate sheet.)

H - Humanities     N - Natural Science     S - Social Sciences

Will this course be used to fulfill a requirement for the baccalaureate core?     YES x NO
IF YES, check which core requirements it could be used to fulfill:
O = Oral Intensive, Format 6
W = Writing Intensive, Format 7
Natural Science, Format 8

12. COURSE REPEATABILITY:

Is this course repeatable for credit?     YES x NO

Justification: Indicate why the course can be repeated (for example, the course follows a different theme each time).

How many times may the course be repeated for credit? TIMES
If the course can be repeated with variable credit, what is the maximum number of credit hours that may be earned for this course? CREDITS

13. GRADING SYSTEM:

LETTER: X     PASS/FAIL: 

14. PREREQUISITES

These will be required before the student is allowed to enroll in the course.

RECOMMENDED
Graduate standing (600-level) or instructor permission; Invertebrate zoology

15. SPECIAL RESTRICTIONS, CONDITIONS

16. PROPOSED COURSE FEES

Has a memo been submitted through your dean to the Provost & VCAS for fee approval? Yes/No

none

17. PREVIOUS HISTORY

Has the course been offered as special topics or trial course previously? Yes/No

If yes, give semester, year, course #, etc.: Spring 2010 (MSL 693)

18. ESTIMATED IMPACT

WHAT IMPACT, IF ANY, WILL THIS HAVE ON BUDGET, FACILITIES/SPACE, FACULTY, ETC.

None. Sarah Hardy, the instructor for this course, has been hired by SFOS, and this course will serve as one of the 2 – 3 courses she is required to teach each academic year. No specialized facilities are required for this course.

19. LIBRARY COLLECTIONS

Have you contacted the library collection development officer (ffk1j@uaf.edu, 474-6695) with regard to the adequacy of library/media collections, equipment, and
During the period when this course was offered as a "special topics" course, continuous communication was maintained with Anne Christie in the BioSci library. Anne has received a copy of the syllabus and tentative reading list, and it was determined that all reading materials needed are available through the library. Special assistance with student research projects will be provided as needed.

20. IMPACTS ON PROGRAMS/DEPTS

What programs/departments will be affected by this proposed action? Include information on the Programs/Departments contacted (e.g., email, memo)

The MSL program will be impacted by an increase in the diversity of course offerings available to graduate students. Topics covered will also be of interest to FISH graduate students, particularly for those interested in aquaculture and shellfish resources.

21. POSITIVE AND NEGATIVE IMPACTS

Please specify positive and negative impacts on other courses, programs and departments resulting from the proposed action.

The MSL program has identified a need for this specialized course to serve their graduate students, and thus a faculty position was created for an instructor with expertise in this field to develop just such a course. The course is therefore expected to closely complement the existing course requirements in MSL and address a specific gap within the program. No negative impacts are expected from this course.

JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus-wide curriculum committees is to scrutinize course change and new course applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. Use as much space as needed to fully justify the proposed course.

Understanding the processes that influence survival and movement of larval forms is essential to a wide variety of current issues in marine ecology, particularly in Alaskan waters, including invasive species, climate impacts on species ranges, fisheries resource management, and establishment of marine reserves. This course will give students an in-depth exposure to this important topic, which is currently only briefly dealt with in survey courses, and is thus expected to become a central component of the graduate coursework for marine biology and biological oceanography students in the MSL program.

APPROVALS:

Signature, Chair, Program/Department of: Date

Signature, Chair, College/School Curriculum Council for: Date

Signature, Dean, College/School of: Date

Signature of Provost (if applicable) Date

Offerings above the level of approved programs must be approved in advance by the Provost.

ATTACH COMPLETE SYLLABUS (as part of this application).

Note: syllabus must follow the guidelines discussed in the Faculty Senate Guide
http://www.uaf.edu/uafgov/faculty/cd/syllabus.html.

The department and campus wide curriculum committees will review the syllabus to
ensure that each of the items listed below are included. If items are missing or
unclear, the proposed course change will be denied.

SYLLABUS CHECKLIST FOR ALL UAF COURSES

During the first week of class, instructors will distribute a course
syllabus. Although modifications may be made throughout the semester, this
document will contain the following information (as applicable to the
discipline):

1. Course information:
   - Title, number, credits, prerequisites, location, meeting time
     (make sure that contact hours are in line with credits).

2. Instructor (and if applicable, Teaching Assistant) information:
   - Name, office location, office hours, telephone, email address.

3. Course readings/materials:
   - Course textbook title, author, edition/publisher.
   - Supplementary readings (indicate whether required or recommended) and
     any supplies required.

4. Course description:
   - Content of the course and how it fits into the broader curriculum;
   - Expected proficiencies required to undertake the course, if applicable.
   - Inclusion of catalog description is strongly recommended, and
     Description in syllabus must be consistent with catalog course
description.

5. Course Goals (general) and Student Learning Outcomes (more specific)

6. Instructional methods:
   - Describe the teaching techniques (eg: lecture, case study, small group
discussion, private instruction, studio instruction, values clarification,
games, journal writing, use of Blackboard, audio/video conferencing, etc.).

7. Course calendar:
   - A schedule of class topics and assignments must be included. Be specific
   so that it is clear that the instructor has thought this through and will
   not be making it up on the fly (e.g. it is not adequate to say “lab”.
   Instead, give each lab a title that describes its content). You may call
   the outline Tentative or Work in Progress to allow for modifications during
   the semester.

8. Course policies:
   - Specify course rules, including your policies on attendance, tardiness,
class participation, make-up exams, and plagiarism/academic integrity.

9. Evaluation:
   - Specify how students will be evaluated, what factors will be
     included, their relative value, and
     how they will be tabulated into grades (on a curve, absolute scores,
     etc.)

10. Support Services:
    - Describe the student support services such as tutoring (local and/or
regional) appropriate for the course.

11. Disabilities Services:
    - The Office of Disability Services implements the Americans with
Disabilities Act (ADA), and insures that UAF students have equal access to
the campus and course materials.
State that you will work with the Office of Disabilities Services (203 WHIT, 474-7043) to provide reasonable accommodation to students with disabilities.”
