10. **ESTIMATED IMPACT**
WHAT IMPACT, IF ANY, WILL THIS HAVE ON BUDGET, FACILITIES/SPACE, FACULTY, ETC.

Little impact is expected. The class is currently repeatable, open to students in the Clinical-Community Psychology PhD program only and is taught in the Psychology Department Clinic and off site locations. Changing from 6 to 9 credits will increase the number of hours students may spend in the clinic and the number of hours faculty will be supervising students.

11. **LIBRARY COLLECTIONS**
Have you contacted the library collection development officer (kljensen@alaska.edu, 474-6695) with regard to the adequacy of library/media collections, equipment, and services available for the proposed course? If so, give date of contact and resolution. If not, explain why not.

12. **IMPACTS ON PROGRAMS/DEPTS:**
What programs/departments will be affected by this proposed action?
Include information on the Programs/Departments contacted (e.g., email, memo)

If students choose to repeat credit and gain hours in Psychology Department Clinic, the access the Counseling Program in the School of Education has to the clinic could potentially be impacted. DCT, (Dr. Chris Brems) has discussed this with the Director of the Counseling Program (Dr. Allan Morotti) on September 9, 2010.

13. **POSITIVE AND NEGATIVE IMPACTS**
Please specify positive and negative impacts on other courses, programs and departments resulting from the proposed action.

See above. None other expected.

**JUSTIFICATION FOR ACTION REQUESTED**
The purpose of the department and campus-wide curriculum committees is to scrutinize course change and new course applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. If you ask for a change in # of credits, explain why; are you increasing the amount of material covered in the class? If you drop a prerequisite, is it because the material is covered elsewhere? If course is changing to stacked (400/600), explain higher level of effort and performance required on part of students earning graduate credit. Use as much space as needed to fully justify the proposed change and explain what has been done to ensure that the quality of the course is not compromised as a result.

An increase in maximum credits will allow doctoral students more access to clinical training in order to be more competitive for internship and post-doctoral placements.
