   adequacy of library/media collections, equipment, and services available for the proposed course? If so, give date of

20. IMPACTS ON PROGRAMS/DEPTS
What programs/departments will be affected by this proposed action?
Include information on the Programs/Departments contacted (e.g., email, memo).

This course will require advanced students to have successfully complete several pre-requisites prior to enrolling in this course. This action will result in more rigorous advising to ensure students are prepared for this capstone course by the end of their academic career.

21. POSITIVE AND NEGATIVE IMPACTS
Please specify positive and negative impacts on other courses, programs and departments resulting from the proposed action.

The negative aspect of this course is that it will require students have completed all of the pre-requisites prior to enrolling. This may lead to lower enrollment for the first cycle of the class offering. The positive impact is that more students will be thoroughly prepared for industry careers and/or graduate school after completing this course.

JUSTIFICATION FOR ACTION REQUESTED
The purpose of the department and campus-wide curriculum committees is to scrutinize course change and new course applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. Use as much space as needed to fully justify the proposed course.

This is a major change to the course previously offered at FLM 470 – Advanced Film and Video Directing. The difference of this new course will be to emphasize the complete production of the video pieces, so as to require each student work on production teams to create multiple original films during the class. Each student will then have served on peers’ productions in a variety of capacities. This new course simply takes the emphasis off of the “Director” and spreads it over all the roles of a film crew.

production work in order to succeed in this course.

E. Goals:  
• Students will gain knowledge of film directors from around the world, their work  
  and techniques  
• Students will evolve their approach to filmmaking through script analysis,  
  storyboarding, shot composition, working with actors, directing crew, and editing.  
• Students will produce an original cinematic work for the final project.

F. Student Learning Outcomes:  
• Students will understand setting up shots and scenes to match their vision of the film.  
• Students will gain insight to cinema through directorial choices.  
• Students will have created an original capstone project
G. **Instructional methods:**

The class will meet for lecture and “hands-on” demonstration and practice of various techniques and exercises. All course assignments and materials will be available via Blackboard. Each member of the class will produce and direct and original final film.

H. **Course policies:**

1. **Attendance:**

   Attendance is mandatory. Students receive three points for every class attended; two points for each class arrived to less than 5 minutes late, one point for arriving more than 5 minutes late, and zero points for not attending. Class participation and preparation is essential for this course. Your classmates are counting on you!

**Take responsibility for getting assignments or handouts from classmates.** If you miss class for any reason, it’s your responsibility to arrange for a classmate to collect copies of any handouts, or to provide you with information on any assignments, activities, lecture materials, or dates changed. Studies have shown that students who attend class regularly and participate fully, find assignments and exams much easier and more meaningful, and (surprise!) tend to get better grades than those who do not attend class regularly.

**Be in class to earn a grade for an in-class activity or exercise.** Students will be responsible for presenting and critiquing video material in class, should you miss this portion, you will take a zero for the day. In-class activities and exercises may not be made up at a later date. In rare instances, students may have to miss class for a valid, university-sanctioned reason (in general, an absence is considered “official” when the student is: (A) participating in an approved field trip or other official UAF activity [e.g., athletics, music, theater arts]; (B) confirmed under doctor’s orders; or (C) granted a leave of absence from UAF for reasonable cause by an academic dean or director). Except for medical emergencies, which require documentation, absences must be approved by the instructor prior to the class session that will be missed. Alternate assignments to make up for any in-class points will be given only for instructor-approved absences.

2. **Blackboard/Assignments:**

   - All students should access Blackboard at http://www.classes.uaf.edu. I do monitor who has accessed it when, so get online.
   - The **Course Documents** folder includes a copy of this syllabus, research materials, software, a link to schedule editing time, and instructional videos.
   - **Assignments** are posted in the **Assignments folder**, and organized by Week. You are responsible for all the assignments listed there. This syllabus is just an outline for class assignments and developments.
   - **Staff Information** includes my complete calendar so you can be proactive and make an appointment to see me or contact me.

3. **Cell Phones:**

   Cell Phones are helpful tools in film production, but should your cell phone ring during a shoot you will be asked to leave for the day and will receive zero points. If it happened on a working set, you would be fired! Texting is prohibited during class.
4. **Equipment:**

Each student crew is responsible for checking out and returning equipment (video cameras, tripods, microphones, etc.) Equipment checkout is available from the Journalism Dept. in Bunnell 101. As instructor, I reserve the right to remove you from any group or restrict you from working with any equipment should there be abuse, misuse, or damage done. You will be billed for any equipment damaged.

5. **Editing Labs:**

The Alaska Media Center computer lab (Music 305) has four MacPros loaded with Final Cut Pro 7 (Studio 3) for you to use. **You will need your polar express card to access the lab.** Each entrance to the Lab is recorded, so should there be a problem we know who was in the lab when. Please sign-in and out when you use the computers (so I know how often you were really there editing). You can sign up for no more than 3 hours of editing time per day. Should no one be using the computers, then you can continue to work. Sign up for your time online: [http://filmuaf.genbook.com](http://filmuaf.genbook.com)

If you are more than 15 minutes late, you lose your time to the first person waiting in line.

6. **Actors:**

Directors are encouraged to use actors from theatre majors and acting classes. For casting recommendations please contact Acting instructor Carrie Baker at 474-7754 or Stephan Golux at 474-5253.

7. **Production Teams:** Each student will be part of a production team, which will rotate responsibilities on the set from project to project. I recommend that teams work together to share information and experience. Each team will evaluate one another's participation on a per project basis as part of the evaluation process. Should you have any issues with members of your team, please see me immediately.

8. **Set-up:**

On Production days, all equipment must be set-up on location **by the time class starts** or you will be considered late. Production days will be determined ahead of time, and production teams should ensure that all equipment and set up needs are covered, particularly with a location shoot.

I. **Evaluation of Work & Grades**

1. **Values**

   **All work will be evaluated using a +/- grading system as follows:**

   - A+ = 4.0  100-97%
   - A  = 4.0  96-93%
   - A- = 3.7  92-90%

3. Grading Written and Production Assignments:
The ability to communicate ideas clearly is the cornerstone of a great director. To demonstrate good directing, you should plan to organize your ideas clearly, use correct grammar, spell words and names correctly, and demonstrate that you've thoroughly conceptualized and edited your work. Effort put in to the pre-production will make up for problems during production and post.

All production assignments should be turned in with accompanying production material. Screenplays, storyboards, production schedules, contact sheets, etc. It is the director's responsibility to provide this information along with their final cut of the film.

It's not "cheating" to ask for opinions and editing skills of others. Instead, the discussion is positive and can bring new insights to your work. The Writing Center (http://www.alaska.edu/english/studentresources/writing/) is available for students to develop their writing skills. Please visit or contact them for assistance, Gruening 801 or 474-5314. For assistance with video production, please consult me, or your production team members.

**WRITTEN ASSIGNMENTS** may include:
- film reviews and film director papers
- play critique from a directorial standpoint
- directorial concept paper/directors' notes
- screenplays

**PRE-PRODUCTION ASSIGNMENTS** may include:
