Course Description

This course covers risk analysis and assessment from an All-Hazards emergency management and homeland security perspective. Students will explore vulnerability and risk assessment methodologies for natural, man-made as well as technological disasters/events and develop an understanding of the processes used in identifying and quantifying vulnerabilities in a system (e.g., a physical facility such as a chemical plant, or an infrastructure component such as a power plant).

Course Objectives

- Understand the contemporary security environment of today.
- Understand basic security concepts and terminology.
- Develop an understanding of the different types of threats to critical infrastructure including physical sites and cyber systems.
- Develop an understanding of the application of risk analysis tools.
- Understand how to evaluate risks and develop mitigation strategies and countermeasures.
- Understand basic disaster recovery, business resumption and continuity procedures.

Instructional Methods

The class will be primarily conducted through small group discussion and lecture. The first half of each class will routinely be used for lecture and small group discussion. The second half of class will be utilized for special topic discussions, guest speaker presentations and project work and brief back presentations.
Recommended preparation: 2 hours weekly

**Evaluation**

Quizzes will account for 10% of the overall grade. (True-False, Fill in the blank, Multiple choice, Short answer)

A Mid Term will account for another 20%. (Essay)

Weekly Reviews/Discussion Management 20%. (Students are required to turn in a review of the assigned weekly readings at the beginning of each class. The review is to be two pages (typed), font 11—double spaced. Additionally, students will be prepared to lead discussions/contribute to the lecture.

Blackboard will be used to develop special topic presentations (10%) for use during the course. Each student Team (see below) will be responsible for developing their own special topic, soliciting input from other students via Blackboard (interest in the topic, relevance to the course etc.), and for the development of a 15 minute presentation via power point or other suitable delivery tool.

A Group Project or Capstone will constitute the remaining 40% of the class. Teams of two individuals will be formed early in the semester. Each team will develop a project involving their selection of a specific sector (government, private industry, health, security, technology etc.) where they will be required to (1) identify a specific risk within the sector, (2) conduct a detailed threat/risk analysis of the risk/threat (3) develop a subsequent set of countermeasures, mitigation and or prevention procedures; and finally (4) a disaster recovery/continuity of operations or a resumptions plan to recover from an event.

Quizzes = 10%
Mid Term = 20%
Weekly Reviews/Discussion Management (Participation) = 20%
Special Topics Presentation = 10%
Group Project and Presentation = 40%

A= 90-100%
B= 80-89%
C= 70-79%
D= 60-69%
F= 59 % or less

Additional Reading

Selected articles as needed will be posted either on Blackboard or provided in class.

Course Policies

Students are expected to attend and participate in both the class and discussions generated. Students will be penalized for the late submission of class assignments and for non—attendance (outside of emergency or mutually agreed upon circumstances).

Plagiarism on assignments and cheating on exams will not be tolerated. Students caught plagiarizing or cheating will be disciplined according to the appropriate University of Alaska guidelines.

Support Services

Students are encouraged to utilize the UAF Writing Center in 801 Gruening, ph 474-5314 as needed to assist in the development and refinement of their written products. Please contact me as required should you need to contact other subject matter support services relevant to the development of your leadership or classroom projects/topics.

Students with Disabilities

Students with learning or other disabilities who may need classroom accommodations are encouraged to make an appointment with the Office of Disability Services (Phone # 474-7043). Please inform me of your needs and if I need to meet with the Office of Disability Services to provide the appropriate accommodations and support to assist you in meeting the goals of the course.
