JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus-wide curriculum committees is to scrutinize course change and new course applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. If you ask for a change in # of credits, explain why; are you increasing the amount of material covered in the class? If you drop a prerequisite, is it because the material is covered elsewhere? If course is changing to stacked (400/600), explain higher level of effort and performance required on part of students earning graduate credit. Use as much space as needed to fully justify the proposed change and explain what has been done to ensure that the quality of the course is not compromised as a result.

The course title MUS F606 Advanced Chamber Ensemble covers a variety of different music performance ensembles, each with its own section number. The proposed elimination of variable credit is intended to 1) harmonize the credit given for all ensembles under the MUS 606 title, and 2) harmonize the credit given to graduate-level students with that of all other students enrolled in these ensembles at 100, 200 and 300 levels, which is invariably one credit. Graduate students do not need variable credit in MUS 606 in order to complete their program credits, nor are their additional course activities specific to graduate students that require a variable credit.

Proposed changes to the course description reflect the elimination of variable credit and set the credit distribution correctly as (1+0). There is no specific lab component in these sections, and this appears to be an erroneous application of the lab designation.
