PREREQUISITES*  FREQUENCY OF OFFERING

*Prerequisites will be required before a student is allowed to enroll in the course.

Reference the registration implications below due to Banner coding of these terms:
Prerequisite: Course completed and grade of "C" (2.0) or higher prior to registering for the course that requires it.
Concurrent: Course may be taken simultaneously (and allows for a course to have been previously completed).
Co-requisite: Courses must be taken simultaneously and does not allow for fact that a course was previously completed!

CREDITS (including credit distribution)  COURSE CLASSIFICATION

ADD CROSS-LISTING
See #8 if intent is to stop an existing cross-listing.

STACKED (400/600)
Include syllabi.

Stacked course applications are reviewed by the (Undergraduate) Curricular Review Committee and by the Graduate Academic and Advising Committee. Creating two different syllabi—undergraduate and graduate versions—will help emphasize the different qualities of what are supposed to be two different courses. The committees will determine: 1) whether the two versions are sufficiently different (i.e., is there undergraduate and graduate level content being offered?); 2) are undergraduates being overtaxed? In this context, the committees are looking out for the interests of the students taking the course. Typically, if either committee has qualms, they both do. More info online – see URL at top of this page.

OTHER (please specify)

3. COURSE FORMAT

NOTE: Course hours may not be compressed into fewer than three days per credit. Any course compressed into fewer than six weeks must be approved by the college or school’s curriculum council and the appropriate Faculty Senate curriculum committee. Furthermore, any core course compressed to less than six weeks must be approved by the core review committee.

COURSE FORMAT: (check all that apply)

OTHER FORMAT (specify all that apply)
Mode of delivery (specify lecture, field trips, labs, etc)

JUSTIFICATION FOR ACTION REQUESTED
The purpose of the department and campus-wide curriculum committees is to scrutinize course change and new course applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. If you ask for a change in # of credits, explain why; are you increasing the amount of material covered in the class? If you drop a prerequisite, is it because the material is covered elsewhere? If course is changing to stacked (400/600), explain higher level of effort and performance required on part of students earning graduate credit. Use as much space as needed to fully justify the proposed change and explain what has been done to ensure that the quality of the course is not compromised as a result.

Combining the current two courses to one will provide a clear understanding for the students and instructors regarding their time commitment to the course. All students learning the principles and methods will also take the externship as part of the course as originally intended. There will be less time spent tracking the students for their externship hours. Currently the students have up to a two year period to complete the externship hours. During this time period process is forgotten and skills become rusty. It is hard for instructors to feel positive about a student’s knowledge and skills when there has been no practice for two years. Externship sites and the students will now know at the beginning of the semester the target dates for the externships. This will foster a positive relationship between UAF/CTC Allied Health and the externship sites. Students will not only complete the phlebotomy course in a more timely fashion but also be eligible to sit for the national examination within a shorter time frame. Combining the externship with the principles and methods will ensure the students are competent in their knowledge and skills when entering their externship, ensuring safer care to their clients.
