D. ESTIMATED IMPACT
WHAT IMPACT, IF ANY, WILL THIS HAVE ON BUDGET, FACILITIES/SPACE, FACULTY, ETC.

None.

E. IMPACTS ON PROGRAMS/DEPTS:
What programs/departments will be affected by this proposed action? Include information on the Programs/Departments contacted (e.g., email, memo)

Only math majors.

F. IF MAJOR CHANGE - ASSESSMENT OF THE PROGRAM:
Description of the student learning outcomes assessment process.

Should not affect assessment as these elective packages are purely suggestions: any set of math courses at the 3- and 400 level summing to 21 credits is sufficient for the major.
JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus-wide curriculum committees is to scrutinize program/degree change applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. If you drop a course, is it because the material is covered elsewhere? Use as much space as needed to fully justify the proposed change and explain what has been done to ensure that the quality of the program is not compromised as a result.

The catalog copy was not updated with the deletion of Math 402. This fixes that. In addition, Math 307 is now primarily a course for CS majors rather than math majors; the new suggested packages reflect this. Finally, errors had been introduced with a previous catalog change; this change fixes those errors, which we had not been able to fix through other means.
