1. ACTION DESIRED (CHECK ONE):  
   - [ ] Trial Course  
   - [X] New Course

2. COURSE IDENTIFICATION:  
   - Dept: DVM  
   - Course #: 640  
   - No. of Credits: 5  
   - Justify upper/lower division status & number of credits:  
     Professional Program required course – see CSU syllabus attached

3. PROPOSED COURSE TITLE:  
   Veterinary Pathology/Biology of Disease I

4. To be CROSS LISTED?  
   - TES/NO  
   - If yes, Dept: BIOL  
   - Course #: 6XX  
   - MSL  
   - 6XX  
   - NOTE: Cross-listing requires approval of both departments and deans involved. Add lines at end of form for additional required signatures.

5. To be STACKED?  
   - TES/NO  
   - If yes, Dept.  
   - Course #:  
   - How will the two course levels differ from each other? How will each be taught at the appropriate level?:  
     Stacked course applications are reviewed by the (Undergraduate) Curricular Review Committee and by the Graduate Academic and Advising Committee. Creating two different syllabi—undergraduate and graduate versions—will help emphasize the different qualities of what are supposed to be two different courses. The committees will determine: 1) whether the two versions are sufficiently different (i.e., is there undergraduate and graduate level content being offered); 2) are undergraduates being overtaxed?; 3) are graduate students being undertaxed?  
     In this context, the committees are looking out for the interests of the students taking the course. Typically, if either committee has qualms, they both do. More info online – see URL at top of this page.

6. FREQUENCY OF OFFERING:  
   - Spring each year  
   - Fall, Spring, Summer (Every, or Even-numbered Years, or Odd-numbered Years) — or As Demand Warrants

7. SEMESTER & YEAR OF FIRST OFFERING:  
   - AY2015-16 (if approved by 3/1/2013; otherwise AY2014-15)

8. COURSE FORMAT:  
   - NOTE: Course hours may not be compressed into fewer than three days per credit. Any course compressed into fewer than six weeks must be approved by the college or school's curriculum council. Furthermore, any core course compressed to less than six weeks must be approved by the Core Review Committee.
   - COURSE FORMAT:  
     (check all that apply)  
     [X] 6 weeks to full semester
   - OTHER FORMAT (specify)  
     [ ] Lecture and Lab

9. CONTACT HOURS PER WEEK:  
   - 4 LECTURE hours/weeks  
   - 3 LAB hours/week  
   - 0 PRACTICUM hours/week
   - Note: # of credits are based on contact hours. 800 minutes of lecture=1 credit. 9400 minutes of lab in a science course=1 credit. 1600 minutes in non-science lab=1 credit. 900-4800 minutes of practicum=1 credit. 900-8000 minutes of internship=1 credit. This must match with the syllabus. See http://www.uaf.edu/uafgov/faculty-senate/curriculum/course-degree-procedures/guidelines-for-computing/ for more information on number of credits.

   OTHER HOURS (specify type)
10. **COMPLETE CATALOG DESCRIPTION** including dept., number, title, credits, credit distribution, cross-listings and/or stacking (50 words or less if possible):

Example of a complete description:

FISH F487 W, O Fisheries Management  
3 Credits Offered Spring  
Theory and practice of fisheries management, with an emphasis on strategies utilized for the management of freshwater and marine fisheries. Prerequisites: COMM F151X or COMM F141X; ENGL F111X; ENGL F215X or ENGL F216X; ENGL F414; FISH F485; or permission of instructor. Cross-listed with NRM F487. (3+0)

Will this course be used to fulfill a requirement for the baccalaureate core? **YES:** **NO:** **x**

IF YES, check which core requirements it could be used to fulfill:

- O = Oral Intensive, **Format 6**
- W = Writing Intensive, **Format 7**
- X = Baccalaureate Core

11A Is course content related to northern, arctic or circumpolar studies? If yes, a "snowflake" symbol will be added in the printed Catalog, and flagged in Banner. **YES** **NO** **x**

12. **COURSE REPEATABILITY:**

Is this course repeatable for credit? **YES** **NO** **x**

Justification: Indicate why the course can be repeated (for example, the course follows a different theme each time).

How many times may the course be repeated for credit? **TIMES**

If the course can be repeated for credit, what is the maximum number of credit hours that may be earned for this course? **CREDITS**

If the course can be repeated with variable credit, what is the maximum number of credit hours that may be earned for this course? **CREDITS**
15. GRADING SYSTEM: Specify only one. Note: Changing the grading system for a course later on constitutes a Major Course Change – Format 2 form.

LETTER: X  PASS/FAIL: 

14. PREREQUISITES

Acceptance in Professional Veterinary Medical Program or permission of instructor

These will be required before the student is allowed to enroll in the course.

15. SPECIAL RESTRICTIONS, CONDITIONS

Professional Veterinary Medical program student or permission of instructor

16. PROPOSED COURSE FEES

TBD

Has a memo been submitted through your dean to the Provost for fee approval? Yes/No Yes

17. PREVIOUS HISTORY

Has the course been offered as special topics or trial course previously? Yes/No No

If yes, give semester, year, course #, etc.: 

18. ESTIMATED IMPACT

WHAT IMPACT, IF ANY, WILL THIS HAVE ON BUDGET, FACILITIES/SPACE, FACULTY, ETC.

Professional Program approved by BOR, Chancellor and Provost – Impact on Animal Resource Center in year one depending upon renovation completion.

19. LIBRARY COLLECTIONS

Have you contacted the library collection development officer (bbjensen@alaska.edu, 474-6658) with regard to the adequacy of library/media collections, equipment, and services available for the proposed course? If so, give date of contact and resolution. If not, explain why not.

No X Yes 

Department will keep complete library of required course materials in AHRB office

20. IMPACTS ON PROGRAMS/DEPTS

What programs/departments will be affected by this proposed action? Include information on the Programs/Departments contacted (e.g., email, memo)

Impact on Animal Resource Center facility in year one due to renovation completion. ARC contacted and approved (jeblake@alaska.edu)

21. POSITIVE AND NEGATIVE IMPACTS

Please specify positive and negative impacts on other courses, programs and departments resulting from the proposed action.

Biology & Wildlife, Chemistry or SNRE students may request admission to course for research or professional development. Vet Med will be providing curriculum in biomedical sciences which was not available previously.

JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus-wide curriculum committees is to scrutinize course change and new course applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. Use as much space as needed to fully justify the proposed course.

The course is required for first year veterinary students and the syllabus is provided by CSU CVMBS.

The course has been approved by their accreditation requirements and will be offered at UAF as part of the 2+2 program (first two years at UAF and last two years at CSU).
Offerings above the level of approved programs must be approved in advance by the Provost.

Signature of Provost (if above level of approved programs)

ALL SIGNATURES MUST BE OBTAINED PRIOR TO SUBMISSION TO THE GOVERNANCE OFFICE

Signature, Chair
Faculty Senate Review Committee: __Curriculum Review  ___GAAC
__Core Review  ___SADAC

ADDITIONAL SIGNATURES: (As needed for cross-listing and/or stacking)

Signature, Chair,
Program/Department of:

Signature, Chair, College/School
Curriculum Council for:

Signature, Dean, College/School of:
ATTACH COMPLETE SYLLABUS (as part of this application). This list is online at: http://www.uaf.edu/uafgov/faculty-senate/curriculum/course-degree-procedures/-uaf-syllabus-requirements/

The Faculty Senate curriculum committees will review the syllabus to ensure that each of the items listed below are included. If items are missing or unclear, the proposed course (or changes to it) may be denied.

SYLLABUS CHECKLIST FOR ALL UAF COURSES
During the first week of class, instructors will distribute a course syllabus. Although modifications may be made throughout the semester, this document will contain the following information (as applicable to the discipline):

1. Course information:
   - Title, number, credits, prerequisites, location, meeting time
     (make sure that contact hours are in line with credits).

2. Instructor (and if applicable, Teaching Assistant) information:
   - Name, office location, office hours, telephone, email address.

3. Course readings/materials:
   - Course textbook title, author, edition/publisher.
   - Supplementary readings (indicate whether required or recommended) and any supplies required.

4. Course description:
   - Content of the course and how it fits into the broader curriculum;
   - Expected proficiencies required to undertake the course, if applicable.
   - Inclusion of catalog description is strongly recommended, and
   - Description in syllabus must be consistent with catalog course description.

5. Course Goals (general), and (see #6)

6. Student Learning Outcomes (more specific)

   Instructional methods:
   - Describe the teaching techniques (e.g.: lecture, case study, small group discussion,
     private instruction, studio instruction, values clarification, games, journal writing,
     use of Blackboard, audio/video conferencing, etc.).

8. Course calendar:
   - A schedule of class topics and assignments must be included. Be specific so that it
     is clear that the instructor has thought this through and will not be making it up on the
     fly (e.g. it is not adequate to say “lab”. Instead, give each lab a title that describes
     its content). You may call the outline Tentative or Work in Progress to allow for
     modifications during the semester.

9. Course policies:
   - Specify course rules, including your policies on attendance, tardiness, class
     participation, make-up exams, and plagiarism/academic integrity.

10. Evaluation:
    - Specify how students will be evaluated, what factors will be included, their
        relative value, and how they will be tabulated into grades (on a curve, absolute
        scores, etc.)
    - Publicize UAF regulations with regard to the grades of "C" and below as
        applicable to this course. (Not required in the syllabus, but is a convenient way to
        publicize this.) Link to PDF summary of grading policy for "C":

11. Support Services:
    - Describe the student support services such as tutoring (local and/or regional)
      appropriate for the course.

12. Disabilities Services: Note that the phone# and location have been updated.
    http://www.uaf.edu/disability/
    The Office of Disability Services implements the Americans
    with Disabilities Act (ADA), and ensures that UAF students have equal access to the
    campus and course materials.
    - State that you will work with the Office of Disabilities Services (208 WHITAKER
      BLDG, 474-5655) to provide reasonable accommodation to students with disabilities.

5/21/2013
DVM 640 Biology of Disease

SYLLABUS – SPRING

Department of Veterinary Medicine, University of Alaska Fairbanks

1. Course Information:
   Title: Biology of Disease
   Number: DVM 640
   Credit: 5
   Prerequisites: Successful completion of first semester of veterinary courses (DVM640) or permission of instructor (Bio6XX, MSL6XX)
   Location: TBD
   Meeting time: Four times a week for lectures, time TBD
                 Once a week 3 hour labs

2. Instructor Contact Information:
   Name: Dr. Molly Murphy
   Office Location: 182 Arctic Health Research Building
   Office Hours: TBD
   Office Phone: 474-1928
   Email: TBD

3. Course Reading/Materials:
   Pathologic Basis of Veterinary Disease; McGavin & Zachary,
   5th Ed., 2011
   Handouts/Outlines

4. Course Description:
The course will discuss basic principles of disease with special emphasis on processes likely to be encountered in veterinary practice. We will discuss these topics organized by underlying disease mechanism. The discussions will move from general cell mediated processes to more specific disease mechanisms.

5. Course Goals:
The goals for this course are to provide professional veterinary students with the foundations about basic disease mechanisms and to enable them to apply this knowledge in subsequent courses of anatomic pathology and clinical skills. The courses discusses how molecular and cellular mechanisms lead to pathological changes in tissue and ultimately to disease in domestic animals.

6. Student Learning Outcomes:
   At the end of this course students will be able to:
   1. Recognize the spectrum of basic morphologic changes that affect tissues.
   2. Describe the molecular and cellular basis of these morphologic changes.
   3. Establish a mental image of the microscopic appearance of selected classes of lesions.
   4. Begin to describe and interpret gross and microscopic lesions.

7. Instructional Methods:
Lectures and Laboratory
The lectures will emphasize selected aspects of microbiology, pathology (biology of disease) that are applicable to the practice of veterinary medicine. Lectures are intended to provide illustration, clarification, and updating of information. My philosophy of lecturing is that it is a coaching session to help you understand which information is most important and how to use it. But, the lecture is NOT meant to be the transfer of the exact body of knowledge that is useful in the practice of veterinary medicine. There is far more to learn than I can recite in our limited time together. In the laboratory the students will be presented with specimens exemplifying the material discussed in lectures.

8. Course Calendar:
For details, refer to the section “Tentative Lecture Schedule” in the end of this syllabus.

9. Course Policies:
   Attendance:
   Students are expected to attend all classes. Exams will draw on lecture material and students that do not attend class will likely not to do well in exams.

   Classroom Behavior:
   Any type of behavior in the classroom that is disruptive, distracting, or disrespectful to the instructor or to your fellow students will not be tolerated and will result in dismissal from the classroom. This includes, but is not limited to, disrespectful comments, and the use of tobacco products. All cell phones or other such devices must silenced while in the classroom. Do not browse the Internet, text message or IM while in the classroom. You can use such devices for note taking or other class related activities.

   Plagiarism:
   Plagiarism is the overt or covert use of other people's work or ideas without acknowledgement of the source. This includes using ideas or data from a classmate or colleague without permission and acknowledgement, including sentences from journal articles in your writing without citing the author, or copying parts of a website into your essay. Plagiarism and cheating are serious offenses that violate the student code of conduct which may result in an “F” in the course and/or referral to the university disciplinary committee.

10. Evaluation:
Exam format and weighting is at the discretion of the instructor. The formula used to establish point values for examination are: 4 points per lecture hour for new material and 1 point per lecture hour for the comprehensive portion of the final.

Exam 1 70 points
Exam 2 70 points
Exam 3 70 points
Final Exam 76 points
Lab 14 points
Course total 300 points

LABS: LAB ATTENDANCE IS REQUIRED. In general, it is anticipated that a worksheet will be completed, evaluated, and returned for each laboratory. Satisfactory work sheets will be credited 1 point.

Requests for excused absences must first be discussed with the instructor for the section to be missed. It is the responsibility of the student to provide an excused absence form to the instructor for signature. In the event of emergencies resulting in absence, it is the student's responsibility to contact the Department office and register the cause as soon as possible.

11. Support Services:
If you require more assistance than can be provided in class, and office hours, you may want to contact Student Support Services (http://www.uaf.edu/sssps/) or the Department of Veterinary Medicine for assistance.

12. Disability Services:
All students, including those with disabilities, are welcome in this course, and we are committed to providing equal access to this course for all students. If you have a disability (including learning disabilities) please inform us during the first week of class so that we can accommodate your specific needs. If you have not already done so, you will also need to contact UAF's Office of Disabilities Services (474-5655). Everyone should have the opportunity to participate fully in the course and to complete assignments and exams to the best of their ability. If accommodations are needed to enable you to do so, we will gladly work with you to provide them.

Tentative Lecture Schedule

Week 1
Introduction to Biotechnology  
Recombinant DNA technology  
Laboratory Safety - Lab

Week 2
Applications of Biotechnology  
Introduction to Genetic Disease  
Cytogenetics and Chromosomal Disorders  
Genetics Lab

Week 3
Mendelian Disorders  
Polygenic and Multifactorial Disorders  
DVM 640 Biology of Disease
Introduction to Pathology
Intro to Lesion Description Lab

Week 4
Introduction to Pathology continued
Central Theory of Cell Injury
Reversible Cell Injury
Irreversible Cell Injury
Acute Cell Injury Lab

Week 5
Necrosis and Apoptosis
Pigments
Mineralization
Hemostasis
Adaptation and Chronic Cell Injury Lab

Week 6
Hemorrhage, Congestion and Edema
Thrombosis and Embolism
Introduction to Inflammation
Disturbances of Circulation Lab

Exam 1

Week 7
Patterns of Inflammation
Inflammatory Mediators
Phagocytosis and Microbial Killing
Inflammation Lab

Week 8
Chronic Inflammation
Healing and Repair
Type 1&2 Hypersensitivity Reactions
Type 3&4 Hypersensitivity Reactions
Inflammation Lab 2

SPRING BREAK

Week 9
Autoimmune Disease Autoimmune Disease
Pathogen:Host Interactions
Inflammation Lab 3

Week 10
Disorders of Growth
Non-Neoplastic Disorders/Developmental
Non-Neoplastic Disorders/Acquired
Non-Neoplastic Disorders Lab

Exam 2

Week 11
Pathogenesis of Neoplasia
Pathogenesis of Neoplasia Classification
Neoplasia Lab

Week 12
Characteristics of Neoplasia
Growth of Neoplasms

DVM 640 Biology of Disease
Page 4
Neoplasia Lab 2

Week 13
Host/Neoplasm Interactions
Neoplasms: Grading, Staging and Therapy
Etiology of Neoplasia
Neoplasia Lab 3
