1. ACTION DESIRED
   (CHECK ONE):
   - Trial Course
   - New Course
   - XX

2. COURSE IDENTIFICATION:
   - Dept: HSEM
   - Course #: F611
   - No. of Credits: 3
   - This is a graduate course at the culmination of the Security and Disaster Management graduate degree.

3. PROPOSED COURSE TITLE:
   - Security and Disaster Management

4. To be CROSS LISTED?\n   - YES/NO
   - If yes, Dept:

5. To be STACKED?*
   - YES/NO
   - If yes, Dept:

   * Use only one Format 1 form for the stacked course (not one for each level of the course!) and attach syllabi. Stacked course applications are reviewed by the (Undergraduate) Curricular Review Committee and by the Graduate Academic and Advising Committee. Creating two different syllabi (undergraduate and graduate versions) will help emphasize the different qualities of what are supposed to be two different courses. The committees will determine: 1) whether the two versions are sufficiently different (i.e. is there undergraduate and graduate level content being offered); 2) are undergraduates being overtaxed?; 3) are graduate students being undertaxed? In this context, the committees are looking out for the interests of the students taking the course. Typically, if either committee has qualms, they both do. More info online - see URL at top of this page.

   If yes, give semester, year, course #, etc.:

18. ESTIMATED IMPACT
   WHAT IMPACT, IF ANY, WILL THIS HAVE ON BUDGET, FACILITIES/SPACE, FACULTY, ETC.
   There will be little to no impact. This is an online course so no space is required. Adjuncts will be used for teaching but students will be generating additional revenue in tuition. SOM has received a funding allocation for FY 15 to cover the expenses of developing courses and hiring adjuncts.

19. LIBRARY COLLECTIONS
   Have you contacted the library collection development officer (kljensen@alaska.edu, 474-6695) with collections, equipment, and services available for the proposed course? If so, give date of contact:
   No  XX  Yes
   Generally library resources are not necessary for this topic. Current literature and events will be used in addition to texts.

20. IMPACTS ON PROGRAMS/DEPARTMENTS
   What programs/departments will be affected by this proposed action?
   Include information on the Programs/Departments contacted (e.g., email, memo)
   The Veterinary Medicine program is interested in partnering with HSEM on this graduate program. They believe this graduate program of courses will benefit their doctoral students and, therefore, would bring students to the MSDM program. Beyond this positive impact on both Vet Med and MSDM there should be no impacts on other departments.

21. POSITIVE AND NEGATIVE IMPACTS
   Please specify positive and negative impacts on other courses, programs and departments resulting from the proposed action.
   This is part of a new program for which there is interest from around the country in addition to the Vet Med program. New students will be brought into the department and into contact with UAF which gives all University programs additional exposure. It meets a student need. These students will not generally be on campus or in Fairbanks so they generate no additional competition for student services or housing. No other impacts on other departments are anticipated.
JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus-wide curriculum committees is to scrutinize course change and new course applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. Use as much space as needed to fully justify the proposed course.

This course is part of the proposed new graduate program; Master of Security and Disaster Management. As indicated in the program proposal, there is increasing demand in this program from around the country as nothing like it exists.

The program and the courses proposed add to the level of critical thinking and analysis in topics that are important to leaders and managers in Homeland Security and Emergency Management fields across the board. This course pulls together such topics as Human Security, Policy, Community Planning and the other courses in the MSDM program into a comprehensive look at Security and Disaster Management in the US.

Required Texts:

Additional readings assigned will be provided

Course Description:

HSEM 611 serves as the capstone course for the Security and Disaster Management program. This course will focus on the integration of both security as well as disaster management in a complex globalized environment. The course will explore touch points for public and private partnerships, organizing for effective security and disaster management solutions and the development of effective policies for both the public and private sectors.

Course Goals:

Upon completion of the course students will have been exposed to the use of an All Hazards approach to integrating security and disaster management (SDM) solutions throughout the emergency/disaster management cycle. Students will analyze various contemporary disasters and develop solutions to these problems specific to the disaster/emergency management framework. Students will complete the course with a solid grasp of the subject matter.

Student Learning Outcomes:

Specifically, students will be able to:

- Describe the emergency/disaster management framework.
- Better understand the role of both the public and private sectors and their approach to the emergency/emergency management framework.
- Understand how the U.S. approach to disaster management has changed.
- Understand major policy actors in security and disaster management (SDM).
- Understand U.S. and other regional actors in security and disaster management (SDM).

Instructional Method:

The course format includes a hybrid of online (synchronous and asynchronous) based video lectures, discussion board forums, reading assignments, and lessons. The primary portal for delivery will be UAF Blackboard, which will be supplemented by Adobe Connect for video and face to face meeting purposes.
Recommended preparation: 2-4 hours weekly, including assigned reading and online participation.

Course Evaluation:

Integration Papers: Three integration papers will be developed by each student during the course of the semester. The papers will focus on the integration of security and disaster management issues with a specific focus for each paper. The first integration paper will focus on the development of public and private partnerships for disaster management. The second paper will focus on the role of U.S. national security policy as it relates to regional security issues. The third and final paper will center on the development of an integration paper that addresses either a U.S. or regional SDM concern using the emergency/disaster management cycle as a template. Detailed instructions for these papers will be provided during class.

- Paper #1 = 200 points (20%)
- Paper #2 = 200 points (20%)
- Paper #3 = 350 points (35%)
- 750 points = 75%

Discussion Board Management /Participation: Weekly discussion board posts will be embedded within selected weeks of the course to reinforce the readings and provoke thought beyond the material provided. Discussion board materials will be supplemented by individual research and creativity resulting from articles students bring into the discussion. This independent research should be related to both the integration papers and the weekly readings. You will be expected to provide constructive feedback to at least three other students during the course of these weeks as well. These discussions will normally vary from two to three pages for reflection on the weekly readings to question-centric discussions requiring a minimum of 380 to 420 words.

= 250 points = 25%

Breakdown for grading

A= 90-100% (900-1000 points)
B= 80-89% (800-899 points)
C= 70-79% (700-799 points)
D= 60-69% (600-699 points)
F= 59% or less (599 points or less)

Course Policies:

You are expected to keep up with reading and assignments, and to participate in discussions generated. You will lose points for failure to engage in discussion forums in time to have meaningful interaction on the topics under discussion. Plagiarism on assignments and cheating on papers will not be tolerated. Those caught plagiarizing or cheating will be disciplined according to the appropriate University of Alaska guidelines.

Support Services:

For assistance in improving written products, take advantage of the UAF Writing Center in 801 Gruening, 907 474-5314. Please reach out to me or support staff for subject matter support services relevant to the development of your classroom projects/topics.

Students with Disabilities:
Students with learning or other disabilities who may need special accommodations are encouraged to make an appointment with the Office of Disability Services, http://www.uaf.edu/disability/ (907 474-5655 or TTY at 907 474-1827). Please inform me of any impediments to meeting course objectives which cannot be fully addressed by the Office of Disability Services. I will work with the Office of Disabilities Services (208 Whitaker Bldg) to provide reasonable accommodation to students with disabilities.
