2. COURSE IDENTIFICATION:

- Dept: HSEM  
- Course #: F416  
- No. of Credits: 3

Justify upper/lower division status & number of credits:

This course will be used for a concentration within the BEM degree. It requires a 300-level course as a prerequisite and 400-level status is appropriate as there are advanced concepts expounded upon from lower level courses.

3. PROPOSED COURSE TITLE:  
Cyber Security Management

4. To be CROSS LISTED?  
YES/NO: [X] NO  
If yes, Dept: [ ]

NOTE: Cross-listing requires approval of both departments and deans involved. Add lines at end of form for additional required signatures.

5. To be STACKED?*  
YES/NO: [ ] NO  
If yes, Dept: [ ]

How will the two course levels differ from each other? How will each be taught at the appropriate level?:

* Use only one Format 1 form for the stacked course (not one for each level of the course!) and attach syllabi. Stacked course applications are reviewed by the (Undergraduate) Curricular Review Committee and by the Graduate Academic and Advising Committee. Creating two different syllabi (undergraduate and graduate versions) will help emphasize the different qualities of what are supposed to be two different courses. The committees will determine: 1) whether the two versions are sufficiently different (i.e. is there undergraduate and graduate level content being offered); 2) are undergraduates being overtaxed?; 3) are graduate students being undertaxed? In this context, the committees are looking out for the interests of the students taking the course. Typically, if either committee has qualms, they both do. More info online - see URL at top of this page.

10. COMPLETE CATALOG DESCRIPTION including dept., number, title, credits, credit distribution, cross-listings and/or stacking (50 words or less if possible):

Example of a complete description:

**FISH F487 W, O** Fisheries Management

3 Credits Offered Spring

Theory and practice of fisheries management, with an emphasis on strategies utilized for the management of freshwater and marine fisheries. Prerequisites: COMM F131X or COMM F141X; ENGL F111X; ENGL F211X or ENGL F213X; ENGL F414; FISH F425; or permission of instructor. Cross-listed with NRM F487. (3+0)

**HSEM F416** Cyber Security Management

3 Credits Offered as Demand Warrants

This course focuses on developing an understanding of the concepts, trends and strategies associated with cyber security and managing the risk associated with information systems. This course will enable managers to understand risks associated with information technology, know how to develop compensating controls or mitigations and introduce how to implement them. These skills will be developed in two operating contexts: planning for normal operations and during an emergency event/incident. Planning process, mitigation strategies, detection and recovery associated with cyber security and risk management will be covered. (prerequisite: HSEM 301 or permission of instructor) (3+0)

11. COURSE CLASSIFICATIONS: Undergraduate courses only. Consult with CLA Curriculum Council to apply S or H classification appropriately; otherwise leave fields blank.

H = Humanities
S = Social Sciences

Will this course be used to fulfill a requirement for the baccalaureate core? **If YES, attach form.**

IF YES, check which core requirements it could be used to fulfill:

0 = Oral Intensive, Format 6
W = Writing Intensive, Format 7
X = Baccalaureate Core

11A Is course content related to northern, arctic or circumpolar studies? If yes, a "snowflake" symbol will be added in the printed Catalog, and flagged in Banner.

12. COURSE REPEATABILITY:

Is this course repeatable for credit? YES | NO

XX

Justification: Indicate why the course can be repeated (for example, the course follows a different theme each time).
How many times may the course be repeated for credit? TIMES
If the course can be repeated for credit, what is the maximum number of credit hours that may be earned for this course? CREDITS
If the course can be repeated with variable credit, what is the maximum number of credit hours that may be earned for this course? CREDITS

13. GRADING SYSTEM: Specify only one. Note: Changing the grading system for a course later on constitutes a Major Course Change - Format 2 form. LETTER: XX PASS/FAIL: 

RESTRICTIONS ON ENROLLMENT (if any)

14. PREREQUISITES HSEM F301 or permission of instructor
These will be required before the student is allowed to enroll in the course

15. SPECIAL RESTRICTIONS, CONDITIONS

16. PROPOSED COURSE FEES $ Has a memo been submitted through your dean to the Provost for fee approval? Yes/No

17. PREVIOUS HISTORY
Has the course been offered as special topics or trial course previously? Yes/No
If yes, give semester, year, course #, etc.: 

18. ESTIMATED IMPACT
WHAT IMPACT, IF ANY, WILL THIS HAVE ON BUDGET, FACILITIES/SPACE, FACULTY, ETC.

This course is primarily taught in a hybrid online/in class format so that the small HSEM classroom will be utilized. Adjunct faculty will teach the course.

19. LIBRARY COLLECTIONS
Have you contacted the library collection development officer (kljensen@alaska.edu, 474-6695) with regard to the adequacy of library/media collections, equipment, and services available for the proposed course? If so, give date of contact and resolution. If not, explain why not.
No XX Yes Cyber security materials will generally be used. In the event that other library materials will be needed, they will be contacted.

20. IMPACTS ON PROGRAMS/DEPTS
What programs/departments will be affected by this proposed action? Include information on the Programs/Departments contacted (e.g., email, memo)
There will be no impact on other departments. HSEM students are specifically drawn to this course.

21. POSITIVE AND NEGATIVE IMPACTS
Please specify positive and negative impacts on other courses, programs and departments resulting from the proposed action.
There are no negative impacts. This course offers more options for HSEM BEM students to specialize in their chose field.
JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus-wide curriculum committees is to scrutinize course change and new course applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. Use as much space as needed to fully justify the proposed course.

This is a new course designed to provide specific materials to those BEM students who are already in the cyber security field and wishing to advance, or to those new students who might be looking for their first career jobs. It provides more choices for BEM students and may expose some to a field they might never have thought about.

the items listed below are included. If items are missing or unclear, the proposed course
(or changes to it) may be denied.

SYLLABUS CHECKLIST FOR ALL UAF COURSES
During the first week of class, instructors will distribute a course syllabus. Although
modifications may be made throughout the semester, this document will contain the
following information (as applicable to the discipline):

1. Course information:
   □ Title, □ number, □ credits, □ prerequisites, □ location, □ meeting time
   (make sure that contact hours are in line with credits).

2. Instructor (and if applicable, Teaching Assistant) information:
   □ Name, □ office location, □ office hours, □ telephone, □ email address.

3. Course readings/materials:
   □ Course textbook title, □ author, □ edition/publisher.
   □ Supplementary readings (indicate whether □ required or □ recommended) and
   □ any supplies required.

4. Course description:
   □ Content of the course and how it fits into the broader curriculum;
   □ Expected proficiencies required to undertake the course, if applicable.
   □ Inclusion of catalog description is strongly recommended, and
   □ Description in syllabus must be consistent with catalog course description.

5. □ Course Goals (general), and (see #6)

6. □ Student Learning Outcomes (more specific)

7. Instructional methods:
   □ Describe the teaching techniques (eg: lecture, case study, small group discussion,
   private instruction, studio instruction, values clarification, games, journal writing,
   use of Blackboard, audio/video conferencing, etc.).

8. Course calendar:
   □ A schedule of class topics and assignments must be included. Be specific so that it
   is clear that the instructor has thought this through and will not be making it up on the
   fly (e.g. it is not adequate to say "lab". Instead, give each lab a title that describes
   its content). You may call the outline Tentative or Work in Progress to allow for
   modifications during the semester.

9. Course policies:
   □ Specify course rules, including your policies on attendance, tardiness, class
   participation, make-up exams, and plagiarism/academic integrity.

10. Evaluation:
    □ Specify how students will be evaluated, □ what factors will be included, □ their
    relative value, and □ how they will be tabulated into grades (on a curve, absolute
    scores, etc.) □ Publicize UAF regulations with regard to the grades of "C" and below as
    applicable to this course. (Not required in the syllabus, but is a convenient way to
    publicize this.) Link to PDF summary of grading policy for "C":

11. Support Services:
    □ Describe the student support services such as tutoring (local and/or regional)
    appropriate for the course.

12. Disabilities Services: Note that the phone# and location have been updated.
    http://www.uaf.edu/disability/  The Office of Disability Services implements the Americans
    with Disabilities Act (ADA), and ensures that UAF students have equal access to the
    campus and course materials.
    □ State that you will work with the Office of Disabilities Services (208 WHITAKER
    BLDG, 474-5655) to provide reasonable accommodation to students with disabilities.

Course Description

This course focuses on developing an understanding of the concepts, trends and strategies associated with cyber security and managing the risk associated with information systems. This course will enable managers to understand risks associated with information technology, know how to develop compensating controls or mitigations and introduce how to implement them. These skills will be developed in two operating contexts: planning for normal operations and during an emergency event/incident. Planning process, mitigation strategies, detection and recovery associated with cyber security and risk management will be covered.

Course Objectives:

Develop an understanding of:
- Cyber risks, mitigations and controls.
- Establish and understanding of trade offs between cyber security and operations.
- Enable critical thinking about cyber risk, cost of controls and risk tolerance.
- Cyber security and risk management strategy development and management.

Course Textbook(s):

Additional Reading:

Additional reading assignments have been selected from articles and Web Sites. Where possible, the course author has obtained permission to include session handouts of the assigned reading.

Instructional Method:

The course format includes lecture, directed reading assignments, class discussion board topics and internet-based assignments via Blackboard. Case Study and current topics in cyber security research will be used to supplement the text material, highlight emerging trends and include developing areas of cyber security.

Reading and online lecture time: 4-5 hours weekly
Recommended preparation: 4-5 hours weekly beyond reading and online lecture time
Evaluations:

1. Weekly Assignments/Discussion Board Management 42% (420 points)
   - Weekly Assignments are worth 20 points each.
     - Multiple choice and/or short answer essay questions
     - Due Thu. at 11:59p
   - Discussion Board Posts are worth 30 points each.
     - Initial response to discussion board posts are due Wed. at 11:59p for 10 of 30 points
     - 2 follow-up responses are due Sun. at 11:59p for 10 of 30 points each
     - All post comment positions will be supported by at least 1 citation from the text or other reputable source (not Wikipedia).

2. Mid Term Test will account for 29% (290 points)

3. Final Paper 29% (290 points)
   - The final paper will highlight a class of threats, the range of risks associated with them, common methods for controlling or compensating for the risks, environments where they exist noting any variation in risk level. One emerging approach to dealing with the threats will be introduced and discussed. Finally attention will be paid to how to incorporate controls and mitigations into planning for normal operations and how they get included during an emergency event.
   - The paper (290 points) will be:
     - Original work supported by APA format
     - Include a cover page and a works cited page
     - Be developed analyzing at least 3 valid sources of information
     - Be between 3-5 pages in length.
   - A grading rubric for the final paper has been attached to the back of this syllabus.

***For additional information on APA formatting: https://owl.english.purdue.edu/owl/resource/560/01/***

Grading:

Weekly Assignments/ Discussion Board Management = 42% (420 points)
Mid Term Test = 29% (290 points)
Final Paper = 29% (290 points)
Total = 1000 points
Course Policies:

Students are expected to watch instructor posted lectures and participate in discussions generated in Blackboard. Students will turn in work via Blackboard and late submission will not be accepted (outside of emergency or mutually agreed upon circumstances). Plagiarism on assignments and cheating on exams will not be tolerated. Work is to be original efforts to address the specific assignment at hand (in other words, don't submit work from another course). Students caught plagiarizing or cheating will be disciplined according to the appropriate University of Alaska guidelines.

**Discussion Board etiquette: When both posting and responding to the discussion board requirements, remember that these are graded activities. Content is to address the requirement at hand and in terms of a response, be respectful and constructive in nature. Be sure to read the discussion board rubric found in the rubric folder for the course.

Support Services:

Students are encouraged to schedule an initial appointment and utilize the UAF Writing Center in 801 Gruening, ph 474-5314, http://www.uaf.edu/english/writing-center/ for the first written topic review. Further assistance through the writing center is encouraged as needed to assist in the development and refinement of written products. Please contact me as required should you need to contact other subject matter support services relevant to the development of your leadership or classroom projects/topics. Distance students have access to the tutoring as well.

Students with Disabilities:

Students with learning or other disabilities who may need classroom accommodations are encouraged to make an appointment with the Office of Disability Services (Phone # 474-7043). Please inform me of your needs and if I need to meet with the Office of Disability Services to provide the appropriate accommodations and support to assist you in meeting the goals of the course.

416 Final Paper Requirements and Rubric

Paper requirements

The final paper will have students analyze threats, the range of risks associated with them, the common methods for controlling or compensating for the risk and the environments where they exists. Students will then not any variation to the risk level. One emerging approach to deal with the threats will be introduced and discussed. Furthermore, students will show how to incorporate controls and mitigations methods into planning for normal operations and how they get included during an emergency event.

Additionally, your paper needs to be double spaced, and include a cover page (this does not count as one of the 3-5 pages). It will be worth 290 points and it will be evaluated using the grading criteria listed below. All papers must be written APA format and all sources need to be cited appropriately.
