No fiscal impact

E. IMPACTS ON PROGRAMS/DEPTS:

Include information on the Programs/Departments contacted (e.g., email, memo)

Students earning a minor will have at least foundational knowledge in child development. This could be ED or PSY 245 as well as the ECE development courses. Probably insignificant impact to either Ed or PSY.

F. IF MAJOR CHANGE - ASSESSMENT OF THE PROGRAM:

Description of the student learning outcomes assessment process.)

The ECE SLOs are based on the national standards for ECE AAS degree granting institutions. Proposed changes to the minor will ensure that all students receiving acknowledgement of a minor will have at least 3 credits of child development, which is consistent with the national standards that consider child development and learning a major focus of Early Childhood Education.

JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campuswide curriculum committees is to scrutinize program/degree change applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be selfexplanatory. If you drop a course, is it because the material is covered elsewhere? Use as much space as needed to fully justify the proposed change and explain what has been done to ensure that the quality of the program is not compromised as a result.

Changes to the minor ensure all students with an ECE minor have some knowledge of child development.

In general this request unifies the degree by eliminating the campus based electives and more clearly delineates the expectations for students statewide.

1. Re-ordering the courses makes it easier to separate the 100 and 200 level classes, with both practicum courses at the end.
2. Adding ECE 130 Culture Learning and the Young Child (2 cr) was strongly endorsed by the statewide Advisory Council. This course has been optional, but now all students will benefit from it.
3. Requiring both ECE 213 and ECE 214, instead of allowing them to be a choice, means all ECE AAS students will have experiences with hands on curriculum and learning environments for infants and toddlers as well as preschool children. This is advantageous for Head Start staff and also consistent with the accreditation standards for ECE AAS degree granting institutions.
4. Eliminating the elective credits makes the degree more consistent for all students regardless of campus affiliation, advising or delivery method. This will help with national accreditation.
5. Changing the listing of campuses at the beginning helps direct students to the correct resources for advising.
6. Updating the narrative more accurately informs the students about the program.

In summary there are not a lot of substantive changes. There are no new courses. The majority of the students are already following this plan based on advising.

In general this request tightens the degree and more clearly delineates the expectations for students statewide.
