I. Introduction to the issues facing us today and this semester – rj newberry
Rainer spoke briefly concerning our committee’s charge for the year: major modifications to the UAF’s ‘core’.

II. Election of chair for Curricular Affairs and Curriculum Review committee
Rainer Newberry was elected to both positions

III. Attempt to set meetings day/time for semester:
We agreed to Wed afternoon 2-3 pm, dates to be announced.

IV. Proposed statement to go to Fac Senate as part of their pre-meeting package and to be basis for short presentation & Discussion at Fac Senate Meeting (attachment 1)
Strategy: Divide Overall Requirements for Baccalaureate Degrees into two parts
(a) General Education Requirements (=‘identical’ at UAA, UAS, UAF)
(b) Baccalaureate Requirements (= unique to UAF)
This was approved with minor modifications. Those modifications are in current version

What to do with GERC?  Leah agreed to serve as new chair.  No decision was made.

IV. PROPOSED MOTIONS TO FAC SENATE
A. RESOLUTION: to approved changes in UA GER Regulations—to be supplied by Leah Berman.   We approved this, sight unseen, and many regretted doing so.  Will introduce instead at Senate meeting as a topic for discussion. The text is attachment #2.

B. MOTION

The Curricular Affairs Committee moves that the Faculty Senate submit the following changes to the UAF baccalaureate requirements for a faculty vote of approval:

Each student must complete a capstone experience in the student’s major or program, as described below. It will be the responsibility of each Department, Program, and (or) College/School to create, deliver, evaluate, and assess their capstone experience.

Rationale: This change is proposed in support of satisfying UAF’s Learning outcome #4: “Integrate and apply learning, including synthesis and advanced accomplishment across general and specialized studies, adapting them to new settings, questions, and responsibilities, and forming a foundation for lifelong learning. Preparation will be demonstrated through production of a creative or scholarly project that requires broad knowledge, appropriate technical proficiency, information collection, synthesis, interpretation, presentation, and reflection.”

Many UAF Departments and Programs currently have baccalaureate capstone experience requirements; the purpose of this change is to create a UAF-wide requirement. Hence, we envision this proposed change as not adding a significant burden to UAF faculty and students.

Proposed criteria for Capstone Experience
The Capstone experience will demonstrate students’ ability to integrate a wide range of learning. Students will make connections among ideas, skills, and bodies of knowledge, and will synthesize and transfer their learning to new, complex areas of inquiry, products, or situations within or beyond conventional coursework. Specifically, the Capstone will:

- Require that students demonstrate the appropriate skill levels in communication and (as appropriate) quantification.
- Integrate learning from major requirements.
- Guide students through a project or experience relevant to their educational goals
- Provide a basis for evaluating student performance
Be suitable as a potential means for assessing the major requirements

Proposed Instructional Objectives
The student will integrate and apply learning from multiple disciplines and skill sets. The student will demonstrate an ability to contribute to existing bodies of knowledge, work in professional settings, and (or) create products relevant to the student’s further educational, career and life goals. The experience will demonstrate the student possesses intellectual and practical capabilities at a level expected of one receiving a baccalaureate degree from a major university. Each student will complete a body of work as the culmination of the student’s baccalaureate education

Course examples
NORS 484 W/O Seminar in Northern Studies: An interdisciplinary seminar focusing on topics relating to the North with emphasis on the physical sciences, the peoples, and the socioeconomic and political aspects of the area. Specialists in the various fields will assign readings and conduct discussions. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; junior standing; or permission of instructor. (3+0)

PS F499 W Senior Thesis: Thesis will draw from the literature in at least two sub-fields of political science (U.S. government/politics, political theory, public law, comparative politics, international relations) in its analysis. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; PS F101; PS F222; senior standing; permission of instructor. (1.5+0+7.5)

Non-course examples
Portfolio internship performance / presentation participation in competition professional publication

C. We discussed the two different motions we created last spring: one to approve the ‘O/W’ and one to remove the ‘O/W’ altogether. After considerable discussion, it was agreed to find some compromise solution and to present that to the faculty senate for consideration at some later date. We need to present something to faculty senate, however, as a discussion item

DISCUSSION ITEM: WHAT TO DO WITH THE O/W requirement?

1. GERC’s proposal: Replace the current requirement for 2 written-intensive and one oral intensive class with three courses marked ‘C’, that integrate several kinds of communication practices with upper-division content, typically in a student’s major, as described below.

Draft Guidelines for ‘C’ courses Minimum criteria for course approval:
1. Explicitly address at least three of these objectives:
   A. Students will be able to revise written work in response to instructor and peer feedback.
   B. Students will be able to write effectively for diverse audiences.
   C. Students will be able to recognize and navigate the concepts, genres, and conventions of the course discipline.
   D. Students will be able to select appropriate writing technologies to collaborate in personal, professional and civic relationships.
   E. Students will be able to listen effectively and respond effectively to communication practices in the course.

2. At least 50% of the grade must come from assignments utilizing the types of writing and combination of written and non-written forms of communication most appropriate to disciplinary needs and standards and course content. Non-written forms of communication may include, but are not limited to: oral presentations, discussions, training, videography, podcasting, or performance.

3. Provide guided and prompt feedback and opportunities for student revision on student projects, presentations, and papers.

4. In addition to written and spoken communication, address other forms of communication in the course discipline, such as reading and listening and multimodal, digital, or visual communication.

5. Address and practice accurate and ethical referencing/citation practices of source material as it pertains to source authority, academic honesty, and personal credibility.

6. Faculty must have attended a training workshop, to be offered every semester

Notes concerning the proposed requirement:
1. The ultimate rules for ‘C’ courses are not yet fixed; these are the proposed rules and are included to give faculty members a better understanding of what the ‘C’ courses would likely entail.

2. Based on the above, all existing O and W courses would need to be revised and reviewed to qualify for ‘C’ status. None would automatically become ‘C’ courses.

3. It is not clear how current W, O or W, O½ courses would fit into this scheme. Would they become C2, C3, or simply be counted as ‘C’?

4. At this time a majority of Curricular Affairs Committee members do not favor this proposal.

2. Alternative Suggestion
"Replace the current requirement for two written-intensive and one oral-intensive class with a requirement that all baccalaureate degrees contain a communication element integrated within the upper-division course requirements. The School/College/Program/Department (i.e., hereafter referred to as the applicable unit) in control of each degree is responsible for creating a specific list of communication objectives for each degree and implementing a plan to integrate appropriate communication components within the degree course requirements. The applicable unit shall also create appropriate assessment criteria, collect and review relevant assessment data, and take appropriate actions to close-the-loop in the assessment process. The applicable unit will report on communication actions in a separate section of the report filed as part of the regular UAF program review process.”

3. What CAC is in the process of doing: trying to find some middle ground between complete deregulation of O/W and the proposed ‘C’. Will take some months.

**FOR DISCUSSION ONLY AT THIS TIME**

**GERC PROPOSED addition to Baccalaureate Requirements**

Each student must take one course with each of these attributes:

(E) Civic Engagement (3 credits)
(A) Alaska and the Circumpolar North (3 credits)
(D) Intercultural Competence and Diversity (3 credits)

Courses taken to satisfy these (E, A, D) requirements may also satisfy any other baccalaureate requirements.

*Total credits to meet this requirement: 9 credits*
*Total credits in addition to the GER necessarily required to satisfy this requirement: 0 credits*

**Explanatory Notes**

(E) **attribute courses** will offer coursework and/or experiential learning opportunities that enhance students’ understanding in at least one of the following areas: civic identity and commitment, civic communication, civic action and reflection, and civic contexts and structures. These courses will include either direct civic engagement (e.g. a service learning project) with an academic reflection on the experience; address multiple ethical frameworks that inform relationships within and among communities; or explore how historical contexts, issues and developments shape human conflicts and interdependencies from local to global and inform the search for possible solutions to contemporary social problems.

(A) **attribute courses** include topics such as Alaska/northern ecosystems and/or climate change; indigenous peoples, languages and world views; intercultural relations and politics in Alaska and the Arctic; economic development, industry, engineering challenges, and their relation to the environment in the north; natural resources and systems. Courses with this attribute address Alaskan and circumpolar issues as a substantial component of the course and have at least 50% of the readings and assignments of the course devoted to topics relating to Alaska and the circumpolar North.

(D) **attribute courses** will place social justice in historical and political context; enable students to articulate insights into their own cultural rules and biases; demonstrate a complex understanding of the complexity of the history, values, politics, beliefs, and practices of other cultures; interpret intercultural experiences from more than one worldview; and articulate a complex understanding of cultural differences in verbal and non-verbal communication. Courses in this category may focus on differences among people in the United States and/or on understanding contemporary issues from a global perspective or understanding cultures and societies different from those in the United States. Such courses explicitly address at least two of the instructional objectives listed above; address issues of race, ethnicity, gender and sexual identity, and other markers of cultural difference as a substantial component of the course; emphasize the cultural interactions between the Western and non-Western worlds, and/or the interplay between various identity groups within the United States; and have at least 50% of the readings and assignments of the course devoted to topics relating to diversity and intercultural competence.
• Students will be provided with lists of courses with these attributes and such courses will also be indicated in their catalog descriptions. Faculty Senate committees will determine whether a course should have a certain attribute based on the above criterion.
• These requirements should not necessitate taking additional credits to satisfy a student’s common baccalaureate requirements, although depending on the choices, the courses could increase that total.
• Majors are not required to offer courses marked A, E, or D.
• It is intended that foreign languages, Alaska Native or American Sign Language, and many Study Abroad programs will satisfy the D requirement.

***************************************************************************

Rationale:
The purpose of this change is to satisfy UAF’s General Education Learning Outcome 3: "Acquire Tools for Effective Civic Engagement in local through global contexts, including ethical reasoning, intercultural competence, and knowledge of Alaska and Alaskan issues. Facility will be demonstrated through analyses of issues including dimensions of ethics, human and cultural diversity, conflicts and interdependencies, globalization, and sustainability."

***************************************************************************

Why only a discussion item at this time:
The intention of GERC is that a baccalaureate student could satisfy the A, D, and E requirements through taking designated Arts/Humanities/Social Science (and possibly Natural Science) courses while satisfying the BOR 34 credit GERs. (They could also satisfy the requirement by taking courses in addition to the 34 minimum if desired, but the intention is to not add to the credits required for baccalaureate degrees). BA students can easily take additional courses with A, D, and E attributes without being overloaded with credit requirements because the B.A. also requires an additional '18 credits of social science and humanities courses'. However, other baccalaureate programs do not have the same flexibility.

Based on responses to the GERC proposal, a requirement for adding A,D, and E attributes is only acceptable to schools/colleges with non-B.A. baccalaureate programs IF the attributes can be incorporated within the 34 credit 'General Education Requirements'. However, requirements for the attributes (e.g., 'have at least 50% of the readings and assignments of the course devoted to topics relating to Alaska and the circumpolar North') seemingly violate the current restriction of acceptable GER social science courses to "broad survey courses"). Further, how do we coordinate with UAA and UAS concerning this addition to the requirements for acceptable GER courses?

In sum, although an A, D, E attribute requirement could be put in place and certainly courses outside of the 34 General Education Requirement credit could be so designated, it's not clear how we can go about incorporating the attributes into the 34 'unified UA General Education' credits. For example, one possible solution is for UAA and UAS to add A, D, and E attributes to their GER courses. Of course, they'd have to agree to do so.

Although the majority of Curricular Affairs Committee members do not favor the motion, we offer it to the Faculty Senate out of respect to the GERC sub-committee of CAC.
