21. POSITIVE AND NEGATIVE IMPACTS

Please specify positive and negative impacts on other courses, programs and departments resulting from the proposed action.

No impact on other programs is anticipated.

JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus-wide curriculum committees is to scrutinize course change and new course applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. Use as much space as needed to fully justify the proposed course.

Market demand surveys conducted to assess need for a MA program in political science revealed substantial demand for an applied option for students desiring training preparing them for careers in government agencies and non-governmental organizations; and students already employed in such settings seeking career advancement will also benefit from this course. Two iterations of PS 675, plus 1-3 credits of PS 698 will be required of MA students choosing the Project-Based Internship option as the capstone of their MA degree work. This will provide an effective combination of academic and applied work in preparation for careers in environmental and/or Arctic politics and policy.

ATTACH COMPLETE SYLLABUS (as part of this application).

Note: The guidelines are online: http://www.uaf.edu/uafgov/faculty/cd/syllabus.html

The department and campus wide curriculum committees will review the syllabus to ensure that each of the items listed below are included. If items are missing or unclear, the proposed course change will be denied.

SYLLABUS CHECKLIST FOR ALL UAF COURSES

During the first week of class, instructors will distribute a course syllabus. Although modifications may be made throughout the semester, this document will contain the following information (as applicable to the discipline):

8. Course calendar:
   - A schedule of class topics and assignments must be included. Be specific so that it is clear that the instructor has thought this through and will not be making it up on the fly (e.g. it is not adequate to say “lab”. Instead, give each lab a title that describes its content). You may call the outline Tentative or Work in Progress to allow for modifications during the semester.

9. Course policies:
   - Specify course rules, including your policies on attendance, tardiness, class participation, make-up exams, and plagiarism/academic integrity.

Course Scope and Objectives

PS 675 provides a capstone experience for graduate students that combines work experience in agencies of government (federal, state, local), or non-profit organizations. The internship-based project will be of particular value for students who plan to use the MA in political science as a springboard into careers directly involved in the making, implementation and evaluation of policy. To meet graduation requirements for either the EPP or AP track, students may complete one year of internship work (a total of 6 credits) or they may elect to write a thesis. The 6 credits of internship may be taken in the same agency/organization or in different ones, dependent on consultations between the student and his/her committee. The normal required time for a semester-length internship is at least 15 hours/week in the 14-week semester. In lieu of a master’s thesis, internship students will analyze and evaluate her/his internship experience in a paper that displays a solid knowledge and understanding of the relevant academic literature.

Placement

The PS 675 instructor insures that the placement meets student needs and satisfies university and PS MA program requirements (for example, that an agency employee guides and supervises the student’s work). Based on the department’s historical record of relationships with agencies and organizations, it expects to be able to place students in federal agencies (for example, BLM, NPS, USFWS, BIA), state agencies (DNR, DEC, ADFG, DOTPF), and local governments (for example, the planning department or mayor’s office of the Fairbanks North Star Borough). Historically, the department also has arranged internship opportunities with public service and nonprofit organizations, for example in Native organizations (such as Tanana Chiefs Conference, Fairbanks Native Association, Doyon), environmental organizations (for example, the Northern Center), and volunteer organizations (for example, the American Red Cross).

The department also has coordinated internships outside the Fairbanks area—in Anchorage, Juneau, New York City, and Washington, DC. Students seeking to complete most of their MA degree work online may be able to earn internship credit in their home region, if appropriate supervision can be arranged. (Internship credit is not available for the agency in which the graduate student might be employed.)

Stipend

The department is not able to guarantee that stipends will be provided for interns. The department does keep a file of paid internships, most of which are competitive.

Requirements

1. Students will secure an internship appointment in an agency, organization or office other than one in which they are currently, or have been recently, employed. Students will inform their instructors and supervisors of any potential conflicts of interest, or other situations related to current or prior employment or affiliations, that may bear on the fair and accurate evaluation of their coursework.

2. Students will be expected to meet agency expectations for hours worked, completion of tasks assigned, good work habits (e.g., punctuality, reliability, demonstration of respect for agency clients and staff), apparel and conduct appropriate to office norms.

3. The internship instructor will attempt to insure that in addition to learning the normal routines of the agency/office, the intern will work on a semester- or year-long special project. The internship instructor will provide a list of readings (including scholarly books and several research articles) which reflect the academic literature in the area of the internship.
4. The graduate intern will write a 30-40 page paper demonstrating: 1) how the special project has been conducted; 2) the relationship between the student’s internship experience and the academic literature of political science in this area.

**Grading System**

1. The internship instructor will be in regular contact with the intern’s supervisor. The supervisor will evaluate the performance of the intern at the end of the semester, and this evaluation will be a basis of the course grade.

2. The instructor will evaluate the log of the intern’s activity in the agency and the paper. This will be the second basis of the course grade.
