2. GUEST

A. Deborah Horner, Director, Campus and Space Planning – Strategic Plan

Strategic Plan - The report was attached to the agenda. Deborah Horner informed the Council that due to problems with the fy2010 strategic plan website http://www.uaf.edu/strategic/ the current draft is not available, but should be soon. Deborah Horner shared the vision statement, themes, the compact plan, and basic elements of the plan with Council members. She urged Council members to read the document and send comments by 28 November. This is where the eyes of our community both on and off campus are so critical to the creation of this document. She stated that the Chancellor has put forth his vision plan, but the final document should be reflective of the University as a whole. We should review it and ask if the document is really reflective of this University as a whole and look at ways we can we strengthen it.
Annette Chism asked if managers and supervisors were advised about the compact plan that is to be available in January. Deborah Horner stated that to her knowledge they have not. She stated that some units may not have to do a compact plan, but that it is up to senior administrators.

Barbara Oleson commented that the overall strategic plan limits active participation of rural faculty and staff. She stated that is because it is only done by audio-conference and that nobody has been assigned to meet with them face-to-face. Barbara Oleson remarked that it was hard for the rural participants to get their points across during meetings, because of poor audio quality. She stated the audio problem needs to be handled for future strategic planning. She stated that this is critical if we want to include UAF as a whole. Deborah Horner stated that she agreed with Barbara Oleson and apologized for the poor audio quality.

3. OFFICER’S REPORTS

A. Maya Salganek, President, Staff Council

The President’s Report was attached to the agenda.

Tuition Waiver – Maya Salganek encouraged Council members to send feedback about the changes to the tuition waiver. Gary Newman asked if there is any information written about the tuition waiver from the administration. Maya Salganek stated that basically the information she reported was heard at the Staff Alliance meeting. Gary Newman asked if there is anything in the Staff Alliance minutes. Maya Salganek stated that she would check. Qwynten Richards asked if audit classes would still be allowed. Maya Salganek stated that she doesn't know what the position is on auditing courses at this time. Pam Twitchell asked how is this going to be enforced, will someone be hired to check grades. Maya Salganek stated that it is something that we should start paying attention to. Qwynten Richards asked about the statistics related to employees vs. dependents not passing courses. Maya Salganek stated that she did not have the break down between employees and dependents, but that the total number of both dependents and employees failing is about eight percent. The total number of withdrawals is twelve percent, and the total number passing is sixty-one percent. We are looking at a total of about twenty percent that are either withdrawing or failing a course. Angela Linn asked if PAIR could be involved, since that office is involved in academic research. Maya Salganek stated that she is sure that the numbers she reported were prepared by PAIR. Leah Swasey asked what the time frame is for implementing the change. Maya Salganek stated that she does not have that information available at this time.

B. Jeff Stepp, President-Elect Staff Council

Wellness Plan Forum - Jeff Stepp stated that about twenty people attended the forum. He stated that quite a few people recommended other strategies that are better than what is currently being implemented. He stated that many attendees showed interest in being on committees or task force groups to implement programs that might make us healthier. Jeff Stepp stated that Mike Humphrey informed the group that right now we are in the data collection period. Mike Humphrey stated that the collected data should help to give us a better idea about what strategies to implement. Jeff Stepp stated that he has not heard the final on the number of employees that responded to the health survey, so it is unknown at this time.

4. PUBLIC COMMENT

DeShana York asked if there is a Board of Regents’ regulation that allows release time to attend classes and would like to hear input about being allowed time to attend classes whether or not it relates to a staff member’s job or not.

Maya Salganek read University policy regulation 04.06.010, item C: An employee may take up to three credit hours during work hours with prior approval by the supervisor, without having to make up the time, if in the opinion of the supervisor the course work would be of direct benefit to the University. Course work that does not directly benefit the University may be allowed during work time hours provided that it is approved in
advance by the supervisor and does not impede the work to be performed. The employee will be responsible for making up lost work time through a flexible work schedule, requested through and approved by the supervisor. DeShana York stated that even though there is an official policy, departments may have other policies that are loaded on top of the formal policy regulation. Maya Salganek stated that departmental policy does not supersede University policy.
