A. CHANGE IN DEGREE REQUIREMENTS: (Brief statement of program/degree changes and objectives)

This change eliminates four concentrations: Mental Health and Developmental Disabilities, Residential Care, Supervision and Management in Human Services, and Workforce Development. Addictions Counseling and Behavioral Health are retained and a new concentration, Individualized Concentration is added. This new concentration will allow students, with the help of the Human Services Program Faculty, to design a specific concentration that will best meet the student’s career goals. This can include an emphasis in Family Services, Workforce Services, Restorative Justice, etc. This also updates the Human Services Major Requirements for the A.A.S. Degree for better alignment for accreditation and workforce needs.

A.A.S. DEGREE

Minimum Requirements for Degree: 60 credits

[Downloadable PDF](#)

Students in the human services program receive skills-based training based on a foundation of theory. After completing foundation courses, students select an area of concentration (addictions counseling, mental health and developmental disabilities, residential care, supervision and management in human services, or workforce development). They learn interviewing and assessment, case management, crisis intervention, group counseling and specific skills needed within their concentration area.
The program prepares students for entry-level positions in human services agencies. Persons with a strong desire to help others, a sincere respect for mankind and a commitment to their own personal growth may find this field rewarding. They must be emotionally stable, flexible and interested in working with people of diverse social, cultural and economic backgrounds. Recovery from life traumas and addictions can be a positive attribute if the student has successfully worked through specific issues and is willing to continue personal growth.

Students completing a concentration will receive a credential from the human service program. Those who complete an addictions concentration are eligible for certification as substance abuse counselor technicians through the Alaska Commission for Chemical Dependency Professionals certification board. A credential in family empowerment is also offered to students who complete specific classes.

Each concentration is available to B.A. degree students as a minor. The B.A. degree student must complete the concentration and six HUMS elective credits. Concentrations provide students with skills needed for employment. See minor requirements.

This degree program is delivered collaboratively within the UA system.

D. ESTIMATED IMPACT

Human Services Program only. No impact or minimal impact only.

E. IMPACTS ON PROGRAMS/DEPTS:

Social Work, Psychology, Justice, and Rural Human Services. Currently Human Services is articulated with each of these programs and will continue to be in a similar or like fashion. Each department has been contacted, given copies of the proposed changes to HUMS and has positively endorsed those changes. See

F. IF MAJOR CHANGE - ASSESSMENT OF THE PROGRAM:

Students will have greater latitude in course selection and articulation across fields of study.

JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus-wide curriculum committees is to scrutinize program/degree change applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. If you drop a course, is it because the material is covered elsewhere? Use as much space as needed to fully justify the proposed change and explain what has been done to ensure that the quality of the program is not compromised as a result.

- Enhances and updates alignment with workforce needs, e.g. Behavioral Health Standards
- Meets accreditation requirements
- Removes inactive concentrations
- Enhance articulation statewide with related U of A certificate programs and with comparable trainings and certificates in addition to the UA system
