Global Change Student Research Grant Competition - 2016

Accepting proposals from UAF graduate and undergraduate students for research on global change presented in a broader context, with a focus on arctic or subarctic boreal regions.

Research Areas
Social Sciences • Environmental Sciences • Engineering

Funding Priorities
The majority of funding available for graduate proposals in this competition cycle is related to the NOAA-UAF Cooperative Institute for Alaska Research (CIFAR), and must be used to support projects that fall under one of CIFAR's three research themes.

Award Amounts & Duration
• Graduate students up to $10,000; Undergraduates up to $7,500.
• Awards are for one year, beginning July 1, 2016.
• Awards will be announced in late April or early May 2016.

Eligibility
Applicants must have undergraduate or graduate student status in a degree-granting program at UAF at the time the research will be conducted. Undergraduate and graduate proposals will be evaluated separately.

Deadline
• Proposals are due Friday, February 5, 2016.

Application Guidelines
• Detailed application guidelines are available at www.cgc.uaf.edu or in hard copy from the Graduate School in 202 Eielson, or URSA in 301 Bunnell.
• Guidelines have changed this year. Read them carefully before preparing and submitting a proposal.
