I have attached the following:

- Nomination letter from thesis advisor. The letter must include the current status of the thesis project and the student's support status. Advisor should include a statement that specifies when he/she expects applicant to graduate, i.e. is it realistic for the student to graduate within the timeline provided?
- A detailed plan and time-line for completion of the thesis that have been approved by the advisor. For example, include dates of completion of data collection, data analysis, completion of chapter one, chapter two, to provide a generic idea of what needs to be done.
- A written statement (maximum two pages) from the applicant. The statement must include information on the overall thesis progress, future plan, and research achievements.
- A Comprehensive List (by semester) of all sources of funding received since the student began his/her degree (i.e., research/teaching assistantships, fellowships, etc.). **[Do not include financial aid and/or scholarships.]**

I verify that I have enrolled in *nine credits* in Fall 2008 and Spring 2009 semesters and that I will receive no other financial income (except supplementary income from my advisor's research grants - if approved) during the 2009-2010 academic year.
