Re: MPC Recommendation 2009-11 – LIDAR Hut

On September 24, 2009, the Master Planning Committee discussed the LIDAR work by Javier Fochesatto. There have been no changes in design, only in duration of use. MPC passed the following recommendation (8 – 0):

“The Master Planning Committee approves location of the LIDAR hut to the west of the IAB greenhouse on an ongoing basis as long as the research continues and the footprint does not increase. We request an annual update every fall.”

If you are in agreement with the MPC recommendation as stated above, please indicate your approval at the top portion of this document.
