4. Use the drawing below to answer the questions.

a. The small squares (marked A, B, C, and D) are each one unit. How many units is the whole, large rectangle?

Write the answer here_______
b. What is the relationship of the triangle 3 and the total area of the small rectangles A, B, C, and D?

Circle the correct answer and then explain below.

- They are the same.
- The triangles 1 and 2 are larger than the rectangles.
- The rectangles A, B, C, and D are larger than the triangles 1 and 2.
- There is not enough information to know.

c. What fraction of the whole picture is triangle 3?
