

Financial Statement for International Applicants

Important: United States immigration regulations require that certification of admission be based upon both academic acceptance and satisfactory evidence of adequate funds to meet all expenses that will be incurred during the student’s proposed course of study. Please complete ALL ITEMS (front and back) on this form, carefully, in English. Use typewriter or print neatly in ink. Incomplete forms will be returned unprocessed. Graduate applicants must submit this form even though an assistantship has been requested (see reverse).

Please send documents to support your financial declaration. Supporting documentation is needed for each person or party who will be contributing to the cost of your education. The documents should reflect the person’s financial status over time. All documentation should be in English or be accompanied by an English translation. Examples of supporting documentation include: several months’ bank statements; a letter from an employer stating period of employment, planned continued employment, and yearly salary. All documents must be officially translated into English and the monetary amounts expressed in U.S. dollars. Students need to keep a duplicate set of all documentation. They will be necessary to apply for a visa and to enter the United States.
