RSS Welcomes Theresa Springer (Binky), ANSEP Peer Advisor

My name is Theresa Springer, more commonly known as Binky. I am originally from Hooper Bay, but have been residing in Bethel for the last 4 years. I have attended KUC/UAF for 3 years and am majoring in Communications. My educational goals include graduating from UAF with a bachelors degree in Communications and eventually a bachelors degree in Culinary Arts. I chose Communication, because I enjoy speaking, and communicating with others around me. I hope to one day get a job as a Radio/Television director, or to work for a Public Relations firm.

I just got hired as the ANSEP Peer Advisor and am proud to be a part of this group of friendly people. This job gives me the opportunity for me to utilize my communication skills and to gain more experience working with others around me.

Thank you UAF and RSS for all you do.

After your job shadowing experience, we ask that you participate in an online survey, and we will be inviting all mentors and students to get together towards the end of the semester to share their experiences and meet each other. **RSS Student Spotlight ~ Agnes Wasky**

Agnes is from St Marys, Alaska, she is in her second year at UAF as an Elementary Education major. She currently participates in ANESA, Future Teachers of Alaska (FTA), and Inu-Yupiaq Dance Group. She gets her motivation to do well in school from her parents, RSS advisor, and friends. One challenge faced while attending UAF is video games, but she forces herself to do the work and get it done. Currently she pays for schooling through scholarships. Agnes shares “I really encourage students to apply for scholarships because it sucks paying for school out of your own pocket or taking out loans. Also scholarships are easy to fill out and there are a lot of scholarships out there, you just have to reach out for them.”

**RSS Alumni Spotlight~
Sonta Hamilton Roach**

Sonta is from Shageluk, Alaska. Her parents are Rudy and Joyanne Hamilton, paternal grandparents are the late Adolph and Margaret Hamilton, maternal grandparents are Harlan and Delores Knauf. She earned her degree in Rural Development: Land, Resource and Environmental Management. Her first encounter with RSS was during the Tanana Chiefs Conference Youth Employment Services (YES) program. The group toured RSS and listened to a student panel. Later after graduating from high school and applying to UAF, she received a phone call from an advisor who helped her greatly in scheduling classes, financial aid, and since then she have always gone to RSS first for advising services. While on campus, RSS was space where she felt comfortable, so she spent many hours there working on homework, visiting with other students, or attending workshops and presentations. RSS helped her throughout the duration of her college experience and she would recommend their services to everyone! During her college years, Sonta participated in the Native Student Organization club and ANESA. Sonta faced many challenges while going to college, ranging from...
homesickness to navigating the UA system (financial aid, class scheduling, etc.). Her motivation came from home first and foremost. Her family has always been very supportive of her educational goals. She also connected with other students, became involved, and knew that she was in control of her education- she was the only person who can make the most of her college experience, so she embraced the challenges. Sonta shares about scholarships and grants “Each student should seek scholarships and grants BEFORE going for loans. Students should draft personal essays ranging from 500 to 1000 words, work on their resumes, focus on their GPA and make a list of scholarships available to them. A future student’s number one goal should be financing their education and learning how to do that.” Earning a college degree has been beneficial for Sonta’s employment career. It doesn’t mean that she is employable for environmental resource management only, it is beyond that scope and network. Her focus was on rural development, but she has been heavily involved in tribal management, resource management, and the education field. Sonta’s overall goals and plans have always been to help Tribes and to return back to her hometown, Shageluk. She feel strongly about educated Alaska Native people giving back to their communities. Academically, there will be a time she will finish here BA degree in Elementary Education and teach in Shageluk, then eventually earn her Masters Degree.
