Philosophy & Humanities	\$279
Communications & Journalism	\$268
Chemistry & Biochemistry	\$263
English	\$247
Homeland Security & Emergency Management	\$246
Business Administration	\$234
Sociology	\$217

*The Delaware Study includes only four-year programs.

These categories are not departments; they are subject-based (as identified by CIP codes) and may not align precisely with UAF departments.

The cost per credit hour represents a three-year average from 2014-2016.

Some subject areas might include programs that have been suspended, which are being reviewed separately.

There have been some changes to programs and departments since this study was done.

Departments and programs highlighted in gray will be reviewed in 2019-2020.
