

Pre-Event  
**Virtual Workshop  
Series 2025**

# IEEE 1547 Interconnection Standard:

*Enabler of Technical Innovation and End-User Benefit*

**MAY 13th - 14th ON ZOOM**

**8:30 AM - 12:30 PM AKT | 12:30 - 4:30 PM ET**

Join us virtually as we introduce the IEEE 1547-2018 Standard for Interconnection and Interoperability of distributed energy resources (DER) with Electric Power Systems, and provide an overview of the 1547-2018 standard. This workshop will also put IEEE 1547 in context of other standards that are used for integrating resources with electric power systems, outline how the industry will adopt and apply the IEEE 1547, and how it will facilitate the adoption of newer tech including PV and ES. We will also brainstorm how newer interconnection topics can be informed by, and support new challenges, serving Alaska energy end users.

This event is a part of a series of four virtual workshops held this spring as two half-day Zoom sessions, free of charge, leading up to the Alaska Sustainable Energy Conference:

***June 3rd-5th at the Dena'ina Center in Anchorage, Alaska***
