1. **Assessment information collected**

   Assessment of the CS Integrated BS/MS program is handled within the assessment of the CS BS program and the assessment of the CS MS program. See the SLOA documents for those programs.

2. **Conclusions drawn from the information summarized above**

   See Part 1.

3. **Curricular changes resulting from conclusions drawn above**

   Various changes in undergraduate CS classes were made during the review period, based on assessment of the CS BS program. See the SLOA documents for the CS BS program.

   Degree requirements for the CS BS program were changed during the review period, with changes in place beginning fall 2013. As of the end of the review period, corresponding changes in the degree requirements for the Integrated BS/MS program have not been made. The CS Department is currently considering what form those changes should have.

   No graduate curriculum changes were made during the review period. However, a proposal was developed for changes in the graduate curriculum, to address issues raised by varying enrollment and lack of instructors.

4. **Identify the faculty members involved in reaching the conclusions drawn above and agreeing upon the curricular changes resulting**

   Note: Curricular changes are approved by all permanent CS faculty.

   **AY 2012-13**

   CS Assessment Committee:

   - Jon Genetti (chair)
   - Chris Hartman
   - Orion Lawlor
Additional contributions to assessment evaluation & reports by:

- Glenn G. Chappell

Other permanent CS Department faculty:

- Brian Hay
- Pete Knoke
- Kara Nance
