1. Assessment information collected
   a. Faculty Course Assessment Reports (FCAR)
   b. Senior exit survey
   c. Oral comprehensive exam report from committee chair
   d. Graduate study plan and GPA
   e. Authorship in journal manuscripts, reports, and technical documents.

2. Conclusions drawn from the information summarized above
   a. Graduates have the broad range of skills necessary to succeed in the engineering profession.
   b. Graduates are knowledgeable in the advanced topics of their research projects, and able to communicate quantitative information in both oral and written form.
   c. Graduates are competent in a wide range of advanced mechanical engineering topics.

3. Curricular changes resulting from conclusions drawn above
   a. A recommended reporting format will be distributed to faculty committee chairs to improve lateral assessment in future.
   b. A wider range of computer aided design (CAD) and manufacturing (CAM) elective courses will be offered.
4. Identify the faculty members involved in reaching the conclusions drawn above and agreeing upon the curricular changes resulting
