1. **Assessment information collected**

The College of Rural and Community Development has recently undergone restructuring which has had an impact on all of our programs. One significant improvement is the implementation of program assessment protocols which until now, have not been consistently conducted. Therefore, we do not have Pre-Nursing Qualifications-Certificate assessment summary data, but now our SLOA has clear guidelines for assessment as we move forward.

2. **Conclusions drawn from the information summarized above**

Changes within the UAF/CTC have also occurred and streamlined the advising for the Pre-Nursing Qualifications-Certificate which will help in the tracking of the students.

3. **Curricular changes resulting from conclusions drawn above**

Allied Health and Nursing Faculty involved in the Pre-Nursing Qualifications-Certificate completed an evaluative process and tool for the upcoming 2012-2013 academic year. The program will collect, assess, and review the data collected and submit a new summary report in May 2013.

4. **Identify the faculty members involved in reaching the conclusions drawn above and agreeing upon the curricular changes resulting**
