Date: June 21, 2013

1. Assessment information collected
   A. Operational Knowledge

   Five of five graduates took the General Emergency Management Body of Knowledge Exam.

2. Conclusions drawn from the collected information summarized above

   The respective scores were as follows: 66%, 77%, 80%, 82% and 84%. All but one student performed at the satisfactory level. Overall, 80% of the students who took the exam passed.

   Students have indicated that they are having to utilize the operational knowledge tested on a more regular basis both in the employment (firefighting/EMS) and in other classes.

3. Curricular changes resulting from conclusions drawn above

   We will continue to monitor our students passing rate as in the past years however we will additionally look to add opportunities within our program to reinforce the operational knowledge in both our exercise design class as well in other classes already taught as part of the current curriculum.

   Identify the faculty members involved in reaching the conclusions drawn above and agreeing upon the curricular changes resulting

   All undergraduate changes to the BEM program were addressed by the BEM Assurance of Learning Committee which consists of:

   Cam Carlson, Chair
   David Krikorian
   Kevin Berry
   Anita Hughes (AOL Support)
