B.A. Degree

Minimum Requirements for Degree: 120 credits

This program provides an in-depth study of Japanese language and culture aimed at applying linguistic skills and cultural insights to specific career opportunities.

Japanese is classified among the most difficult of foreign languages for American students. The highlight of the major is, therefore, one semester of intensive study in Japan during the junior or senior year. This interdisciplinary program culminates in a senior seminar on contemporary Japan. Students will begin their research project for the seminar while studying at our exchange university, Nagoya Gakuin, or at another pre-approved program. Students are encouraged to use this major in conjunction with a discipline-based major.
