## B.A. Degree

Minimum Requirements for Degree: 123 credits

Graduates in social work qualify for beginning practice positions in child welfare, mental health, services for the aged, family agencies, youth programs, health services, Native corporations and other social agencies. Social work applies knowledge in the behavioral sciences to deal with the emotional and social problems of individuals, families and communities.

The curriculum includes a liberal arts base, foundation requirements in the behavioral sciences, and sequences in social policy and services, practice methods and field instruction. A major emphasis is the preparation of the student for beginning social work practice with rural and Alaska Native populations.

Students learn to work with people on a personal level and are placed in a social agency as part of their course work during the senior year. A Title IV-E entitlement grant provides stipends to senior students doing practicums in child protection.

Students wishing to focus on understanding the aging process from a social work perspective and working with older adults may specialize in gerontology. Majors will take SWK 342—Human Behavior in the Social Environment II, SWK 370—Social Work and The Aging Society, and an approved elective with gerontology content. Students minoring in social work can choose either the general social work minor or a social work minor with a specialization in gerontology.

The UAF baccalaureate social work program is accredited by the Council on Social Work Education. This degree program is delivered collaboratively within the UA system.
